36TH AVENUE SW PAVEMENT REPLACEMENT PROJECT

On Wednesday, June 4, 2014, A-Tech Paving, working under contract with the City of Norman, will begin the replacement of concrete pavement and curb/gutter in the northbound lanes of 36th Avenue SW from Willowbend Road to south of Main Street as part of the City's Annual Pavement Maintenance Program. 36th Avenue SW will be narrowed to one lane of traffic for southbound travel. Northbound 36th Avenue SW will be detoured to accommodate the concrete paving operations. The recommended detour route is Western View/Cherry Creek Drive and Main Street. Traffic control devices will be placed to aid the traveling public through the work zone. Construction will be completed by Friday, June 13, 2014.

For additional information, please contact the City of Norman Street Division Project Manager, Mr. Greg Hall, at (405) 329-2524 or by email Greg.Hall@NormanOK.gov
