### **CEDAR LANE ROAD PROJECT**

Beginning Tuesday, August 12, 2014, Duit Construction, under contract with the Oklahoma Department of Transportation, will be installing underground storm water structures at the intersection of 12<sup>th</sup> Avenue SE and Cedar Lane Road. This work will require temporarily closing the intersection between the hours of 9:00 A.M. and 3:00 P.M. each day during the week. Signs will be placed to detour the traveling public around the construction using U.S. Highway 77 and State Highway 9. Local access to nearby neighborhoods will be provided to residents within the closure area. Weather permitting; this work should be completed by Friday, August 15, 2014.

The Cedar Lane Road Widening Project is a \$9.8 million street improvement project. When the project is completed, Cedar Lane Road will be widened to four lanes with 5-foot bike lanes adjacent to the curb, the intersection of 12<sup>th</sup> Avenue SE and Cedar Lane Road will be widened and signalized with dual left turn lanes from 12<sup>th</sup> Avenue SE onto eastbound Cedar Lane Road, the railroad at-grade crossing will become a quiet zone crossing, and 5-foot sidewalks will extend the length of the project on both sides of Cedar Lane Road. The Oklahoma Department of Transportation is administering the construction of the project on behalf of the City of Norman because federal transportation funds are involved in the project.

Additional questions may be directed to Mr. Josh Malwick, City of Norman Capital Projects Engineer, at (405) 366-5454 or [Josh.Malwick@NormanOK.gov](mailto:Josh.Malwick@NormanOK.gov).
