### **Road Closure - Constitution Street at Bishop Creek**

On Wednesday morning, December 2, 2015, Constitution Street between Ryan Avenue and Oak Tree Avenue was temporarily closed to traffic due to an emergency repair of a public sanitary sewer pipeline, as well as the bridge over Bishop Creek. During the winter storm that occurred on November 25-29, 2015, vegetative debris collected near the bridge and pipeline located in/over Bishop Creek. Storm water eroded the east bank of the channel causing several large trees to fall into the creek and separate a sanitary sewer line. An emergency pipeline system has been put in place to keep the sanitary sewer system in service. City crews are in the process of removing the vegetative debris and stabilizing the east bank of Bishop Creek. Signs have been placed to direct the traveling public. This temporary road closure will be in place for several days.

Additional questions relative to the road closure may be directed to Mr. John Clink, City of Norman Capital Projects Manager, at 366-5424 or [john.clink@normanok.gov](mailto:john.clink@normanok.gov)
