Subject: Press Release 12/8/15 - Main St Urban Concrete Rehab Project

PRESS RELEASE

City of Norman
201 West Gray
Norman, Oklahoma 73069

For Immediate Release: December 8, 2015

Contact: Stan West, Public Works, Streets Supervisor, 329-2524, stan.west@normanok.gov

Main Street Urban Concrete Rehab Project

Beginning Tuesday, December 8, 2015, A-Tech Paving under contract with the City of Norman will begin sealing the joints within the new concrete pavement on Main Street between 36th Avenue West and 48th Avenue West. Temporary lane closures are likely and signs/barricades will be placed to protect the workers and the traveling public in the construction area. Citizens are urged to use alternate routes if possible, as delays can be expected. Weather permitting, this phase of the project will be completed by January, 2016.

The Main Street Urban Concrete Rehabilitation Project is a \$1.5 million street maintenance project. This street maintenance project is one of over 140 projects approved by Norman voters in the Norman Street Maintenance Bond Election of March 2010. The project involves the replacement of sections of damaged concrete pavement on three miles of Main Street between Berry Road and 48th Avenue West. The project is scheduled to be completed by January, 2016.

Additional questions may be directed to Mr. Stan West, City of Norman Streets Supervisor, at 329-2524 or stan.west@normanok.gov.
