**Subject:** PRESS RELEASE 1/8/16 - Road Closure - Berry Rd from Boyd Street north to Symmes

## **PRESS RELEASE**

**City of Norman**  
**201 West Gray**  
**Norman, Oklahoma 73069**

For Immediate Release: January 8, 2016

Contact: Jim Speck, Capital Project Engineer, 217-7778, [jim.speck@normanok.gov](mailto:jim.speck@normanok.gov)

### **Road Closure – Berry Road from Boyd Street north to Symmes**

On Monday morning, January 11, 2016, traffic on Berry Road will be closed from Boyd north to Symmes Street, weather permitting. The northbound lane will be accessible for local traffic only. Traffic access to Berry from Windsor Way, Westlawn Drive and Camden Way will be closed.

Warning and detour signs will be placed to assist the motoring public. As an alternative to Berry Road, drivers are urged to use routes such as Wylie Road or Flood Avenue between Main Street and Lindsey Street.

McKee Utility Contractors is installing new 16-inch waterlines for both the Norman Utilities Authority and the University of Oklahoma along Berry Road from Lindsey Street to Main Street. As the work progresses, Berry Road will be temporarily closed in two to three block sections; pavement repairs will be completed immediately following waterline installation. Construction between Boyd and Symmes is expected to take several weeks. The Berry Road Waterline Replacement project should be complete by May 2016.

Contact Jim Speck, Capital Project Engineer, City of Norman Utilities Department, at 217-7778 or [jim.speck@normanok.gov](mailto:jim.speck@normanok.gov) with questions.
