Jenkins Avenue between Lindsey and Stinson to Temporarily Close Early Monday

Jenkins Avenue between Lindsey Street and Stinson Street will be closed to traffic Monday at 2 a.m. and will reopen by 8 a.m. The one day-temporary road closure allows further progress on a phase of construction of a new parking garage for the University of Oklahoma.

As construction progresses on the parking garage over the next few months, there will be up to seven more days when a temporary one-day road closure will occur on Jenkins Avenue. The next scheduled date is March 4. Motorists will be advised of subsequent closures.

Traffic control devices will be installed to make drivers aware of the closing.

The contractor for the project is Lithko Contracting, a subcontractor for JE Dunn Construction General Contractors.
