

CITY OF NORMAN

CAPITAL IMPROVEMENT PROJECTS BUDGET

FISCAL YEAR ENDING: JUNE 30, 2025
FINANCIAL PLAN - FISCAL YEAR END 2026-2029

ON THE COVER: JAMES GARNER LEGACY

"I don't think you could find anyone more proud of being from Norman, Oklahoma than James Scott Bumgarner."

- Terry Bumgarner (James Garner's Nephew) -

James Scott Bumgarner was born in Norman, Oklahoma on April 7, 1928. He was born in east Norman's Denver community, which is now under Lake Thunderbird, and grew up in central Norman. He served in the U.S. Merchant Marine and U.S. Army National Guard during World War II and the Korean War, earning numerous commendations and medals. He achieved great fame over his career as an actor, appearing in over 50 theatrical films and several network television series, including starring roles in the very successful "Maverick" (1957-1962) and "The Rockford Files" (1974-1980) TV series. He was nominated for Academy Awards for his movie roles in Murphy's Romance (1985) and The Notebook (2004), and received numerous Emmy Awards for his television roles, including a Best Leading Actor Award in 1977 for The Rockford Files. In 2004, he was given the Screen Actors Guild Lifetime Achievement Award.

Garner was an avid golfer and car driver, and performed most of his own stunts in his "Rockford Car", a 1978 Pontiac Firebird (actually 3-4 specially-equipped cars per season were used on the set of The Rockford Files), which is depicted on the cover. Many viewers considered "the car the star" of the show. Garner also drove the "pace car" in the Indianapolis 500 car race on two occasions.

Garner returned to Norman often to visit family, and in 2006, the former Front Street, running parallel to the BNSF railroad tracks in downtown Norman was named for him, along with the unveiling of a statue commemorating his "Support Your Local Sheriff" movie roles. James Garner Avenue is being extended and widened as a part of the NORMAN FORWARD program (a voter-approved, temporary ½ percent sales tax approved in 2015 for quality of life improvements throughout Norman), from Main Street north to a modern roundabout that will connect with Flood Street to form a new vehicle and pedestrian access to downtown Norman. The James Garner Avenue road project is also an extension of Legacy Trail, a widened, paved pedestrian trail adjacent to the railroad tracks throughout Norman.

The James Garner Avenue overpass of Robinson Street will feature backlit artwork commemorating "the Rockford Car" and James Garner's signature, and the middle of the roundabout will form the plinth for an attractive public art piece, "Revolutions" by Oklahoma artist Paul Bagley (pending Council approval). Architectural design drawings of the James Garner Avenue widening project are included in this document. Construction of the widened and extended James Garner Avenue is expected to be completed in the summer of 2024.

Jim Garner, née James Scott Bumgarner of Norman, Oklahoma, died on July 19, 2014 in Los Angeles, California.

THE CITY OF NORMAN

OUR MISSION

“WORKING TOGETHER TO DELIVER EXCEPTIONAL SERVICE”

To fulfill our mission, City of Norman employees pledge themselves to these values:

TEAMWORK

We value each other's contribution and encourage teamwork.

CARING

We value service to others in a caring manner. We listen with a willingness to understand the needs of others. We respond in a friendly, helpful way.

ACCOUNTABILITY

We are responsible for our work and actions.

SERVICE

We are committed to providing exceptional service in a courteous, dependable and efficient manner.

RESPECT

We respect our differences and treat each other with understanding and dignity.

FAIRNESS

We seek to understand the needs of others. We strive for equity in the delivery of services and in the treatment of individuals.

PROFESSIONALISM

We value a knowledgeable, capable and effective organization.

RESPONSIVENESS

We value a timely response to both customer and employee.

We believe that these values are the foundation of all our endeavors to make our community a better place now and for future generations.

For the Fiscal Year Beginning

July 01, 2023

Christopher P. Morill

Executive Director

Executive Summary of the FYE 2025 Capital Improvement Projects Budget - By Fund

I. Dedicated Public Safety Sales Tax Fund (15)

Revenues to this fund derive from a one-half percent (1/2%) Public Safety Sales Tax (PSST). Ordinance O-0708-32, passed in 2008 and permanently extended in 2014 by Ordinance O-1314-33, authorized the City to assess the new sales tax to increase the number of police officers and firefighters, construct two new fire stations, and fund several critical public safety needs. Revenue bonds were issued in fiscal year ending 2015 to finance three of the critical public safety needs.

II. Community Development Block Grant Fund (21)

The Community Development Fund is a Special Revenue Fund established to account for the resources allocated to Community Development Block Grant (CDBG), the HOME Partnership Program, and other funds from the U.S. Department of Housing & Urban Development (HUD). Revenues to this fund derive from Federal Government grants. The City will advance the funds and the grant program will reimburse the City based on regularly filed claims. During FYE 25 there are two capital projects totaling \$140,000.

III. Special Grants Fund (22)

Revenues to this fund derive from contributions, gifts of cash, or other assets from another government or non-profit agency to and used for a specific purpose. They are budgeted as received.

IV. Room Tax Fund (23)

The Room Tax Fund is a Special Revenue Fund established to account for a tax on the gross revenues of hotel and motel establishments. Fifteen percent (15%) of Room Tax revenue is budgeted for Parks Development. There is one project in FYE 25 totaling \$250,000.

V. Public Transportation Fund (27)

The Public Transportation and Parking Fund is a Special Revenue Fund established to account for revenue to fund operations, maintenance, and other expenses associated with the City of Norman's public transportation system. Revenue is derived from grants from the Federal Transit Administration (FTA) and the Oklahoma Department of Transportation; the Public Transit Sales Tax; advertising; and a contribution from the Norman Regional Health System.

VI. Water Fund (31)

Capital projects are funded through user fees, bonds, loans and grants. Funding for capital projects in FYE 25 totals \$14,053,000. Project expenses from the Water Fund included are for the Water Distribution System (\$4,130,000), Water Wells (\$773,000), and the Water Treatment Plant (\$9,150,000) in FYE 25. Significant impact on the operating budget is expected. Most of the impact cannot be quantified at this time. However, it is estimated that annual payments for water rights will impact the operating budget, as wells are constructed, by approximately \$11,000 per well per year. These wells will produce approximately 300,000 gallons each, which will generate potential revenue of \$124,000/well/year at \$1.14/1,000 gallons.

VII. Water Reclamation Fund (32)

Funding for these projects are wastewater user fees, revenue bonds, and project specific grants. Capital project expenses for 2 projects in FYE 25 are \$3,800,000.

VIII. Sewer Maintenance Fund (321)

The Sewer Maintenance Fund is an enterprise fund established October 1, 2001, to account for revenues from the \$5 per month Sewer System Maintenance Rate (SMR). It is used to account for all expenditures related to major maintenance of the water reclamation system (capital improvement projects accomplished through contracts with private construction vendors), primarily for rehabilitation of neighborhood sewer lateral lines. Four pay-as-you-go capital projects are funded in FYE 25 in the amount of \$5,880,000. Replacement of deteriorated sewer lines should decrease infiltration and inflow into the collection system, reducing treatment costs and line maintenance costs.

IX. New Development Excise Tax Fund (322)

The New Development Excise Tax Fund, established October 1, 2001, accounts for revenues and capital project expenditures from excise tax levied and collected on new development (including developments of tax-exempt property owners) to be served by the City's water reclamation system. Revenues are used for constructing improvements to wastewater collection, conveyance and treatment facilities. These are for new growth (full build-out) related wastewater capital projects, including interceptor improvements and north side wastewater treatment plant environmental impact studies, as required by the Environmental Protection Agency (EPA) as part of the permitting process.

X. Sanitation Fund (33)

The Sanitation Fund is an enterprise fund used to account for the operations associated with solid waste collection and disposal in the City of Norman. There is one project valued at \$600,000 in FYE 25.

XI. Capital Fund (50)

Seventy percent (70%) of one percent (0.7%) of sales tax is set aside for capital improvements. Those projects approved for construction with this funding are accounted for in the Capital Improvements Fund. Capital Sales Tax revenue is projected to be \$17.5 million in FYE 25. Bond projects will use \$14,657,029 of GOB. \$300,000 is anticipated to be available from earned interest.

Capital Outlay

By Council policy, 27% of the capital sales tax revenue is dedicated for capital outlay. In FYE 25, the amount of \$4,255,378 will be transferred to the General Fund for capital outlay and \$66,186 will be transferred to the Westwood Fund (29).

Street Maintenance

Street maintenance continues to be a high priority. Revenue dedicated for street improvements by formula is 20% of the capital sales tax. In FYE 25, \$2,852,877 is budgeted for alley repair, asphalt and concrete pavement maintenance, asphalt paver patch, crack seal, force account drainage materials, and rural road improvements. In FYE 25 an additional \$89,340 is transferred to the General Fund for Storm Water Drainage Labor. A significant amount of street maintenance, not included here, is funded in the GOB projects listed below.

Maintenance of Existing Facilities

Maintenance of existing facilities is to preserve existing facilities and prevent/postpone need for major capital expenditures. Historically, revenue dedicated for facility maintenance by formula is 5% of the capital sales tax projections. Due to an increase in square footage maintained by the City, Council chose to increase this variable in the formula to 7% in FYE 24. This will be offset by reducing the general contingency amount to 5%. In FYE 25, \$1,225,877 is proposed for 18 individual projects.

Other Capital Projects

Other capital project expenses include \$6,599,520 for projects, \$1,295,180 for salaries & benefits and \$23,552 for Services & Maintenance. Major project categories include Transportation (\$3,629,520), Buildings and Grounds (\$435,000), Parks and Recreation (\$110,000) and Stormwater (\$2,450,000).

Information Technology Infrastructure

In FYE 25, the City Manager is proposing a change in formula dedicating approximately 5% of Capital Sales Tax revenue for Information Technology Infrastructure. In FYE 25, two projects totaling \$875,000 are proposed.

GOB Projects – 2012

On August 18, 2012, voters approved \$42,575,000 in major street and bridge projects. Property tax is the authorized funding source. Some of these expenses have been approved in amendments to the Budget. There are no requests in FYE 25.

GOB Projects – 2019

On April 2, 2019, voters approved \$72,000,000 in transportation improvement projects. General obligation bonds will be sold with a property tax as the funding source. There is \$6,695,159 in expenses programmed for FYE 25, with the remaining program scheduled from FYE 26 to beyond 5 years

GOB Projects – 2021

On April 6, 2021, voters approved \$27,000,000 in street maintenance projects as a continuance of the 2016 street maintenance program. General obligation bonds have been sold with a property tax as the funding source. There are projects valued at \$5,496,854 scheduled for FYE 25.

GOB Projects - 2023

On October 10, 2023, voters approved \$50,000,000 in bridge maintenance projects. General obligations bonds will be sold with property tax as the funding source. There is a total of \$2,465,016 in expenses programmed for FYE 25, with the remaining program scheduled from FYE 26 to beyond 5 years.

Capital projects will affect the General Fund operating budget. Facility/infrastructure improvements and replacements are built to higher standards, and should reduce maintenance expenses, increase efficiency and increase safety (i.e. the Maintenance of Existing Facilities set-aside, Building Maintenance Projects, etc.). However, there will be a gradual but cumulative demand to maintain more traffic control facilities, buildings and parks in future years.

XII. Norman Forward Sales Tax Fund (51)

NORMAN FORWARD is a citizen-initiative to renovate, expand, construct and fund Quality of Life projects, such as multiple recreational facilities, libraries, parks, athletic venues, public art, trails, swim complexes and other quality of life projects throughout Norman. This one half of one percent (1/2%) 15-year temporary sales tax increase to fund Norman Forward Quality of Life Projects was approved by voters on October 13, 2015 and was effective January 1, 2016. Some of the projects will be funded on a pay as you go basis. Some of the projects are of greater costs, and therefore require borrowing funds through general obligation bonds. In FYE 25, \$730,000 of pay-go funds were appropriated for 2 projects. The individual projects' impacts on the operating budget may be significant because they are new and expanded facilities

XIII. Park Land and Development Fund (52)

The Park Land and Development Fund is a Special Revenue Fund established for the purpose of accounting for Park Land fees as identified in Ordinance Number O-7576-21 dated January 1976. Typically, projects appear before Council for budgeting when sufficient development occurs to warrant improvements and sufficient funds collected to pay for the improvements. There are no projects scheduled for FYE 25

XIV. University North Park Tax Increment Finance District Fund (57)

The purpose of the University North Park TIF (TIF #2) is to facilitate development and improvements in the University North Park Area, in accordance with the Oklahoma Constitution and Local Development Act. City Council and property owners identified projects to fund. There are no scheduled projects for FYE 25.

XV. Center City Tax Increment Finance District Fund (58)

The CCFBC was adopted by the City Council on May 23, 2017 to codify the goals and objectives of the Center City Vision. The City Council adopted the Norman Center City Project Plan and Tax Increment Finance District No. 3 on December 19, 2017 (O-1718-27), for the purpose of stimulating the development contemplated by the Center City Form-based Code (CCFBC), and promoting smart development practices in the Center City Area. There are currently no new projects scheduled for FYE 25.

XVI. Arterial Road Recoupment Fund (78)

The Arterial Road Recoupment Fund's purpose is to act as a revolving fund to match private funds in constructing arterial roads, in an effort to prevent dangerous gaps. As land is developed, developers are required to construct or fund the widening of the adjacent arterial roads that serve their subdivision. Because it is rare that all adjacent land develops at the same time, the resulting scenario is unimproved road segments, or gaps. In effect, the directional lanes would be two lanes, then one lane, then two lanes, such that dangerous driving conditions occur. The intent is that development pay its way when it (recoupment district) develops. Initial funding of this program was from the Capital Fund. Future revenues will reimburse this fund as a revolving source for this program. In FYE 25, no new project budgets are scheduled.

OVERVIEW

OVERVIEW OF THE CAPITAL IMPROVEMENTS PLAN

1. PLANNING

The Capital Improvements Plan (CIP) is the schedule established by the City of Norman that identifies the major improvement projects and schedules them to fit its fiscal capabilities for five years into the future. Annual reviews are made of the capital improvement projects budget and plan, and the plan is extended one year, to maintain a six-year schema.

Capital Projects generally cost more than \$10,000, are relatively fixed or permanent in nature and have an expected life of more than five years. Such projects consist of the construction of a new, expanded or improved tangible asset, which is physically fixed. Major projects normally require more than one fiscal year to complete. Contracted services for design, land acquisition, utility relocations and construction may be required. Examples include land purchase, new buildings, building additions, street improvements, utility line improvements, parks and playgrounds, and major drainage channel improvements.

Capital Outlay, on the other hand, is an expenditure directed towards maintaining or purchasing new or replacing tangible assets which themselves have expected life spans of one to five years. Expenses are generally one-time and occur within a single budget year. Examples include the purchase of vehicles and equipment.

The CIP maintains a multi-year time frame. Information is updated annually in conjunction with the budget process. Prior years' actual project expenditures are included. The first year shown is the budget for the active fiscal year. The second year is the next fiscal year, for which an official annual budget is being prepared. The remaining four years are projections of anticipated revenues and expenses based on estimated needs and priorities.

Capital projects originate at virtually any point in time and from a variety of sources. Any citizen, organization, Board or Commission may submit requests to Council at any time. Also, special studies and master plans for various city services (such as wastewater, water, parks and recreation, or transportation) culminate at various times, usually resulting in recommended capital projects, including operating impact, scheduling, and revenue sources. If Council determines sufficient need and/or funds exist, then the Capital Budget and/or Plan may be amended. Otherwise, the annual planning and budgeting process begins in the Fall of each year.

2. BUDGETING

The Capital Improvements Budget follows the Oklahoma Municipal Budget Act. The budget is organized by Fund, which is described throughout this document. This is a multi-year program, identifying total project expenses related to a particular project. Past actual expenses are included, however, the first single year is the active fiscal year. After the end of this fiscal year, both the encumbered and unencumbered budgeted amounts automatically roll into the following fiscal year's budget to maintain funding continuity, until the projects are individually closed. The second single year is the additional new funding for the upcoming fiscal year's budget. The remaining years constitute a plan.

The Municipal Budget Act authorizes optional (effective July 1, 2006) nonfiscal budgeting for capital expenses. "*Encumbrances for funds whose sole purpose is to account for grants and capital projects and/or any unexpended appropriation balances may be considered nonfiscal and excluded from the budget by the governing body, but shall be reappropriated to the same funds, accounts and for the same purposes for the successive fiscal year, unless the grant, project or purpose is designated or declared closed or completed by the governing body.*" (11 O.S., Section 17-206, D.). In other words, once appropriated, a budget (encumbered and unencumbered balances) could automatically carry over from one fiscal year to the next until that project is either completed, its budget spent, or the project declared closed. It would no longer be necessary for Council to reconcile and reappropriate unencumbered fund balances for capital project accounts, but only to declare when a grant, project or purpose is closed or completed. This policy was adopted by Council beginning with the FYE 2010 budget.

The Capital Improvement Project Funding Process: During the Fall, Council and Staff begin reviewing the status of capital project implementation and the need to incorporate adjustments or amendments to policy, priorities, scope or costs. Typically Council holds this initial review in November. A first draft proposal for a new CIP is prepared for Council's consideration and comment in February. In response, revisions are prepared and a fiscally responsible multi-year plan is prepared. Additional Council study sessions are held during March, April and May for recommendations and adjustments from City Staff. Two public hearings are then held at regularly scheduled Council meetings, and the final decision for which projects to appropriate funds goes to Council and the City Manager. When adopted in June, the first year becomes the fiscal year budget and the remaining years constitute the projected Capital Improvements Plan.

3. IMPLEMENTATION

With City approval and/or funding available, project managers pursue the necessary steps to implement the approved projects. Typically there are four implementation stages. Design of the improvement is accomplished by a qualified professional and requires proper selection procedures (this may be staff or consultant). Right-of-way acquisition must provide fair treatment of the owner's rights and use of public funds, and sometimes involves hiring of consultant services. Utility relocations involve both City and non-city owned "public" and private facilities and requires coordination of work space and scheduling. Finally, facility construction requires fair selection of contractors, traffic management, inspections, and approvals throughout the period of construction.

When projects anticipate outside funding (such as grants, transportation matching funds, private donations) there are additional requirements of the City. Outside revenues usually are limited to certain types of expenses, with the City responsible for the remainder. Schedules and

costs are affected by such things as the availability of grants, results of plan reviews, differing construction standards, and specific property acquisition procedures.

4. 2025 LAND USE AND TRANSPORTATION PLAN POLICY

General Policies were determined through an extensive citizen participation process and Council action; and documented in the long range general plan for the City. The overall GOAL is to implement City Council public service policies as defined in the 2025 PLAN adopted by Council. It also serves as the basis for infrastructure master plans (i.e., water, wastewater, drainage, parks, et. al).

- a. In summary, the 2025 PLAN establishes the following goals related to capital improvements:
 - Goal 1 – Affirmatively and responsibly manage the location of growth in Norman based on available public services and environmental suitability of the land for development.
 - Goal 2 – Utilize the provision of infrastructure in supporting and influencing growth into areas most suitable for development.
 - Goal 3 - Encourage and support diversified housing types and densities in order to serve different income levels, family structures and ownership.
 - Goal 4 – Enhance the quality of economic growth in the City by attracting high technology-related industries that have low environmental impacts.
 - Goal 5 – Retain the distinct character of rural Norman and protect the environmentally sensitive Little River Drainage Basin.
 - Goal 6 – Develop and maintain a greenbelt system for Norman.
 - Goal 7 - Continue efforts to promote the enhancement and stability of the core area.
- b. Land use patterns (industrial parks/corridors, commercial nodes, neighborhood units, tourist commercial nodes, suburban large lot development, etc.) designated in the 2025 PLAN, as well as environmental and natural resource protection, topography, geology and geography, shall determine design, capacities and location of facilities.
- c. Specific capital projects in the 2025 PLAN shall be considered for programming, subject to the most current review and priorities of City Council.
- d. Utility System Master Plans (i.e., Water, Wastewater, Drainage, Parks, Greenways, et al) shall be utilized to designate the provision of all major City of Norman utility systems in advance of demand, based on projected population, innovative practices, and the Development Sector concept (drainage sub-basins).
- e. All available funding sources shall be used to provide basic public utility services, including utility districts, grants and loans, general obligation bonds, revenue bonds, private participation, intergovernmental agreements, tax increment financing districts, et al.

5. GENERAL PROGRAMMING ASSUMPTIONS

The following assumptions also affect the Capital Improvements Plan:

- a. The City will have enough of the right kind of personnel to accomplish approved projects or effectively manage contractors.
- b. Priorities will change periodically based on programming factors such as available funding, emergency situations, shifts in City policies or strategies, regional or national economics, unforeseen opportunities, incorrect assumptions, project scope, federal or state regulations.
- c. The purpose of projects significantly affects the timing of construction. Factors influencing timing of a project include any of the following:
 - community activity external to capital program management - land development requiring city services, peak hour demand on the water system;
 - federal or state regulations - EPA and ODEQ wastewater treatment effluent standards;
 - emergencies - special events, storms, drought, infrastructure failure; and
 - physical dependence of one project on another - sewage collection lines dependent on interceptors, and sewer/water lines under streets that are both scheduled for improvement.
- d. Projects that started in a phased manner are high priority for continued funding. The first priority in this category are those being funded by general obligation or revenue bonds, because the funds must be spent within a specified time period after sale and there is an obligation to the voters and higher governments to finish these as soon as practical.
- e. The Capital Projects Plan shall act as a guide and shall be annually reviewed, updated, and incorporated into Capital Budgets.
- f. Once Council approves budgets, the funds will remain as commitments unless Council acts otherwise or the projects are closed.
- g. Cost under-runs will be determined, as individual projects are closed. Project managers make written requests to:

- Declare when a project has been completed, and
 - Release unused funds for other uses by closing them.
- h. Project budget transfers shall follow the City's Account Transfer Manual.
 - i. The CIP will primarily be a "pay-as-you-go" (PAYGO) effort incorporating debt financing and private funds as appropriate.
 - j. Enterprise Funds shall finance related capital projects. If revenues are insufficient, it may be necessary to request voters to increase user fees and/or authorize revenue bonds.
 - k. The Capital Fund (funded by 70% of one percent (0.7%) sales tax) will pay for capital project needs which are not associated with enterprise revenues or which require supplemental funding.
 - l. Each year, the Capital Budget will attempt to include funds for capital needs of all related services.
 - m. The completion of arterial streets with existing paving gaps shall be a high priority, and scheduled within the Arterial Road Recoupment Fund when possible.
 - n. A sound financial program to maintain and upgrade existing section line roads shall be included.
 - o. The future impact on the operating budget is an important consideration when evaluating capital projects because it may be necessary to adjust those funds. Operating budget impact comments are included on each project sheet. In most instances, it is difficult to predict the dollar impact, so the following general categories are used: "positive" (will either generate some revenue to offset expenses or will reduce operating costs), "negligible" (operating expenses will increase no more than about \$10,000 per year), "slight" (operating expenses will increase between about \$10,001 & \$50,000 per year), "moderate" (operating expenses will increase between about \$50,001 & \$100,000 per year), or "high" (operating expenses will increase more than about \$100,001 per year).

6. AMENDMENTS

In order for the five-year Capital Improvement Plan to remain a useful guide for public and private investment, it is necessary that it be flexible. City Council is the only body that can amend the CIP. Major reasons for amendments include the following:

- a. Change of Council policy,
- b. Annual budgeting process,
- c. Rescheduling approved projects,
- d. Adding new projects,
- e. Deleting projects,
- f. Changing the scope of approved projects,
- g. Changing financial assumptions or revenue projections, or
- h. Changing the 2025 LAND USE AND TRANSPORTATION PLAN.

All amendments shall be justified by incorporating:

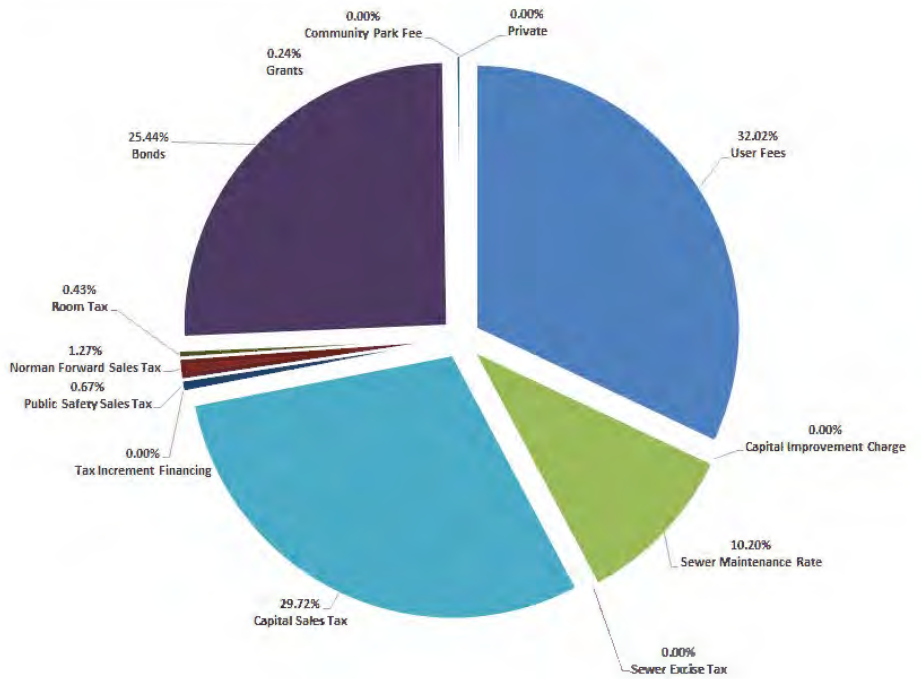

- a. Detailed project description,
- b. Justification; and
- c. Funding

7. FYE 25 CAPITAL IMPROVEMENTS PROJECTS BUDGET

The FYE 25 CIP includes revenues from several sources and expenditures for various purposes. The first chart illustrates sources of revenues expected in FYE 25 for spending on capital improvement projects. The second chart illustrates expenses for capital projects. This chart reflects anticipated revenues from all sources that are available in FYE 25 for capital projects. Most revenue sources are earmarked for specific purposes and are not available for anything else. Only revenues needed to meet FYE 25 needs are shown, but are not typically equal for any given fiscal year. User Fees provides the greatest proportion of revenue for capital projects at 32.02%, followed by Capital Sales Tax at 29.72%, and then Bonds at 25.44%.

Sources of Revenue - All Capital Projects

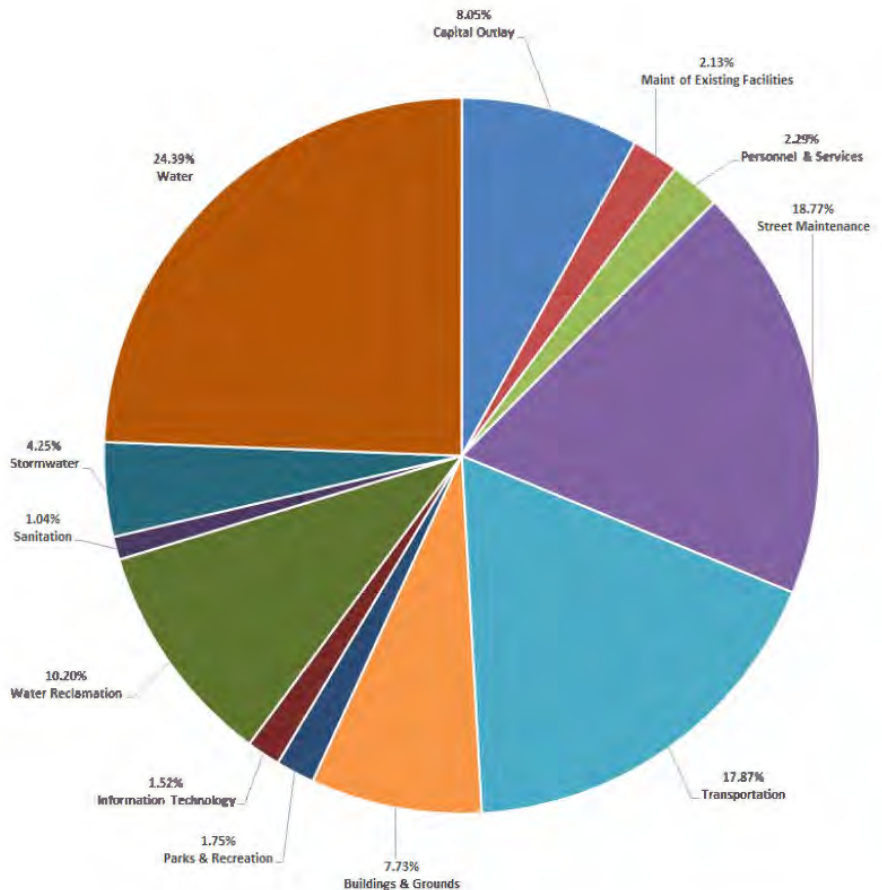

User Fees	\$18,453,000
Capital Improvement Charge	\$ 0
Sewer Maintenance Rate	\$ 5,880,000
Sewer Excise Tax	\$ 0
Capital Sales Tax	\$17,127,384
Tax Increment Financing	\$ 0
Public Safety Sales Tax	\$ 383,770
Norman Forward Sales Tax	\$ 730,000
Room Tax	\$ 250,000
Bonds	\$14,657,029
Grants	\$ 140,000
Private	\$ 0
Community Park Fee	\$ 0
Total	\$57,621,183

Due to the nature of capital projects, expenses may not occur in the year proposed, and balances may be carried forward, because most project expenses occur over several fiscal years. However, this chart represents new budget requests for FYE 25 only. The greatest shares are proposed for Water at 24.39%, followed by Street Maintenance at 18.77%, and then by Transportation at 17.87%.

Capital Expenditure Sources - All Capital Projects

Capital Outlay	\$4,724,655
Maint of Existing Facilities	\$1,225,877
Personnel & Services	\$1,233,225
Street Maintenance	\$11,689,747
Transportation	\$10,299,679
Buildings & Grounds	\$4,455,000
Parks & Recreation	\$1,010,000
Water Reclamation	\$5,880,000
Sanitation	\$600,000
Stormwater	\$2,450,000
Water	\$14,053,000
Total	\$57,621,183

Capital Outlay for non-enterprise related services are funded from the Capital Sales Tax in Fund 50. By policy, Council annually designates 27% of the projected new Capital Sales Tax revenue. Enterprise related capital outlay expenses are funded with enterprise sources.

In FYE 25, the largest portion of Capital Outlay Expenditures is for Fleet/Vehicles at 49.96% followed by Public Safety equipment at 20.65%, and other equipment at 14.82%. Expenditures for capital outlay from the Capital Fund in FYE 25 include the following:

Computer related equipment	\$ 534,002	11.29%
Public Safety equipment**	\$ 976,449	20.65%
Fleet/Vehicles***	\$ 2,362,460	49.96%
Other equipment	\$ 700,951	14.82%
Furniture/Appliances/Fixtures	\$ 12,500	0.26%
Undesignated outlay	\$ 142,022	3.00%
Total	\$ 4,728,384	100.00%

Notes:

*** Fleet/Vehicles includes police & fire fleet

** Computer includes police and fire pcs

SPECIAL REVENUE FUND

CAPITAL IMPROVEMENTS PLAN

SPECIAL REVENUE FUND - 22

ASSUMPTIONS

1. This fund accounts for the proceeds of specific revenue sources that are legally restricted to expenditure for specific purposes.
2. Revenues are received in the form of special grants for capital projects. Local match is typically budgeted in the fund that is its source.
3. Projects are typically completed within a short amount of time and future programming is rare.
4. Agencies approve grants at various times throughout the year.
5. Council will be presented with proposals as projects and funding becomes available in the future.

ROOM TAX FUND

CAPITAL IMPROVEMENTS PLAN

ROOM TAX FUND - 23

ASSUMPTIONS

1. The referendum of July 15, 1980 authorized collection and delineated disbursement of a 4% Hotel/Motel Room Tax. Approximately 25% of the Room Tax Revenues (net of Administrative Fees) are specifically to be used for visible, image enhancing projects. April 2, 2013 Voters authorized increasing the Room Tax rate to 5%. This amount was reduced to 4% in FYE 18 due to budgetary constraints.
2. There is one scheduled project in FYE 25 totaling \$250,000.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Westwood Tennis Center Improvements</u>	Project Type: <u>Parks & Recreation</u>
Project Category: <u>Parks and Recreation</u>	Project Number: <u>RT0091</u>
Department: <u>Parks and Recreation</u>	Account Number: <u>23793364</u>
Manager: <u>Josh Holman</u>	Begin & End Dates: <u>7/1/2023 To 6/30/2030</u>
Ward(s): <u>8</u>	Life Expectancy: <u>25 Years</u>

Detailed Project Description:

Since the addition of the new 2-court indoor facility was completed as part of the NORMAN FORWARD program, there has been an increase in year-round activity at the Westwood Tennis Facility. Also, there has been an increase in participation in Pickleball, which is a modified version of tennis played on the same courts, just in a smaller area around the net. Due to the increased activity, the court surfaces must be kept playable, which requires regular re-surfacing by qualified tennis court construction contractors. This is the only way to keep us qualified to host US Tennis Association (USTA) events. We have started a project to re-surface all of the outdoor courts over the current and the next fiscal years. We also need to replace the old incandescent court light fixtures on the oldest courts with modern LED box fixtures, add walkways to connect the pro shop to the courts west of the building, add a drinking fountain inside of the pro shop, and improve the site furnishings and drainage around the facility. Future phases of work would include the construction of either 4 outdoor pickleball courts east of the tennis courts or to build an indoor pickleball facility in that space--both of which would increase the year-round usage of the facility. These types of projects will likely be included as part of the Westwood Park Master Plan budgeted in FYE2024, and being completed at the time of this budget request. Keeping the courts playable and sanctioned is the focus of this work.

: Expenditure Schedule Through Account 23793364 by Fiscal Year:

Account & Object	Total ALL Fiscal Years	Actual Prior Years	Budget FYE 2024	FYE 2025	FYE 2026	FYE 2027	FYE 2028	FYE 2029	Beyond 5 Years

TOTAL	\$400,000	\$0	\$150,000	\$250,000	\$0	\$0	\$0	\$0	\$0

Operating Impact: Negligible Capital Fund

If funding allows, we propose this project be a Room Tax project, as has already been done for the first two years of funding. Otherwise, we will request the ongoing improvements be approved via Capital Fund. Whichever fund is identified, the court resurface needs to be done ASAP, to avoid being dropped from USTA consideration.

This Project Needs Assistance From:

WATER FUND

CAPITAL IMPROVEMENTS PLAN

WATER FUND - 31

ASSUMPTIONS

1. The primary basis for project selection and priorities include:
 - Water Master Plan recommendations,
 - Maintenance records,
 - Size - all lines under 6" should be replaced to provide pressures for adequate fire flows and the ability to connect standard 6" fire hydrants and meet State Health Department Standards,
 - Infrastructure projects nearby - all water projects should be coordinated with street projects so as not to cause damage to recently improved streets and duplication of work,
 - Age and materials - older lines are generally constructed of substandard materials or are deteriorating, and should be replaced with materials meeting current standards, and
 - Demand - all lines less than 6" serving more than four houses are very critical and should be higher priority.
 - Studies and Reports (i.e. Water system Computer Modeling, Arsenic Study, WTP Engineering Study, et al)
2. There should be a balance of improvements to all parts of the water system. Each year there should be improvements to supply, transmission, treatment, distribution, feeder lines and storage of potable water.
3. Staffing level and equipment capabilities in the Line Maintenance Division will not increase or decrease and present abilities to replace lines will remain stable. This division can currently install lines up to 8" in diameter.
4. All Projects will be scheduled on a PAYGO basis until and unless the voters approve revenue bonds.
5. Revenues from the Capital Improvements Charge (CIC) shall be used for water line replacement and construction of new lines.
6. Voters approved a water rate increase on September 12, 1995 to fund additional wells and distribution lines.
7. Voters approved an incremental water rate increase on May 10, 1999 for high volume residential users to promote water conservation and pay for increased water supply beyond the resources available.
8. On March 7, 2006, the voters approved a water rate hike to fund an increase in water capacity and enhanced maintenance at the water treatment plant, as well as new treatment units to reduce taste and odor problems. Cost overruns are shown as Pay-Go expenses.
9. New funding for eleven pay-go projects are included for funding in FYE 25 totaling \$14,053,000.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Robinson Waterline: 24th NW to WTP</u>	Project Type: <u>Water</u>
Project Category: <u>Water Line Replacement</u>	Project Number: <u>WA0242</u>
Department: <u>Utilities</u>	Account Number: <u>31996683</u>
Manager: <u>Nathan Madenwald</u>	Begin & End Dates: <u>7/1/2019 To 6/30/2028</u>
Ward(s): <u>3, 4, 6, and 8</u>	Life Expectancy: <u>50</u>

Detailed Project Description:

Water Distribution Projects: The proposed water distribution system improvements are broken out by location and assume that funding will be pro-rated between development related and maintenance related needs. Line replacements are generally required due to age, material type and the current state of deterioration. Existing users are expected to pay for maintenance related costs while increasing the size of a waterline is a development related cost to be paid by connection fees or impact fees. Costs are pro-rated by comparing the internal area of the existing pipe to the area of the enlarged pipe. This additional project funding, along with previously allocated funds, should completely fund the next phase of the 30-inch water line along Robinson Avenue from 24th Avenue NE to just west of 12th Avenue NE.

Water Distribution Projects: The proposed water distribution system improvements are broken out by location and assume that funding will be pro-rated between development related and maintenance related needs. Line replacements are generally required due to age, material type and the current state of deterioration. Existing users are expected to pay for maintenance related costs while increasing the size of a waterline is a development related cost to be paid by connection fees or impact fees. Costs are pro-rated by comparing the internal area of the existing pipe to the area of the enlarged pipe.

Classen/James Garner/Flood from Highway 9 to Indian Hills Road: Project will replace 25,700 LF 16" cast iron waterlines with 16" PVC waterlines along Classen from Highway 9 to Lindsey, then along the James Garner/BNSF RR to Robinson, then along Flood to Tecumseh Road. Project will also replace 12,200 LF 12" DIP waterlines with 12" PVC from Franklin to Well #20 just north of Indian Hills Road.

Manager: <u>Scott Aynes</u>	Begin & End Dates: <u>7/1/2023 To 6/30/2030</u>
Ward(s): <u>All</u>	Life Expectancy: <u>50</u>

Detailed Project Description:

This is an annual maintenance project to replace age related fire hydrants and isolation valves within the distribution system on an needed basis. Unneeded funds to be returned to the Water Fund (031) balance at the end of each fiscal year. Location of replacement assets to be determined on a case by case basis. Funds will purchase new fire hydrants, valves, water line fittings and aggregate materials for related asset replacements.

Project Title: <u>Lead Service Line Inventory and Replacem</u>	Project Type: <u>Water</u>
Project Category: <u>Water Service Lines</u>	Project Number: <u>WA0384</u>
Department: <u>Utilities</u>	Account Number: <u>31995521</u>
Manager: <u>Nathan Madenwald</u>	Begin & End Dates: <u>7/1/2023 To 6/30/2030</u>
Ward(s): <u>All</u>	Life Expectancy: <u>50</u>

Detailed Project Description:

The recent Lead and Copper Rule Revision will require new measures for utilities to comply with the rule. Specifically included within this proposed funding are 1) Inventory of approximately 5,000 service lines, 2) Distribution of pitchers to 20,000 locations, and 3) testing of 20,000 locations resulting from any disturbance. Costs for the inventory continue until completed. Reduced costs for the pitchers and testing are proposed in later years since the Advanced Water Metering project will be completed.

Manager: <u>Rachel Croft</u>	Begin & End Dates: <u>7/1/2015 To 6/30/2026</u>
Ward(s): <u>All</u>	Life Expectancy: <u>40</u>

Detailed Project Description:

The groundwater system currently includes wells, pumps and water lines that convey water to the distribution system to serve our customers. No treatment currently occurs to the groundwater including no disinfection or the addition of a disinfectant residual. Additionally, naturally occurring minerals are present within the Garber Wellington Aquifer and have Maximum Contaminant Levels set by the EPA that could require future treatment processes to be added.

This project includes multiple efforts to modify the well system to increase the available well flow to the water system and improved water quality by completing piping modifications and construction of a centralized facility within the groundwater well field to initially provide disinfection and disinfectant residual but include sufficient space to allow for future treatment processes to be added.

Detailed Project Description:

The Phase 2 Water Treatment Plant Improvements were successfully completed and including construction of chemical systems, ozone, disinfection, control building addition, new storage building and additional site improvements necessary for the project. This project will further improve the plant by completing minor improvements to better facilitate the operation of the Phase 2 systems. Specifically included are:

1. Modification and addition of sampling facilities within the ozone basin;
2. New water chiller system to provide cooler water for ozone generator heat dissipation and onsite sodium hypochlorite generation; and
3. Additional salt tank for improved deliveries of salt used for the onsite sodium hypochlorite system.

WATER RECLAMATION FUND

CAPITAL IMPROVEMENTS PLAN

WATER RECLAMATION FUND – 32

ASSUMPTIONS

1. Primary factors affecting project selection and priorities include:
 - Compliance with EPA administrative orders,
 - Relative impact on other parts of the sanitary sewerage system,
 - Maintenance history and service calls,
 - Inspections,
 - Wastewater Master Plan recommendations,
 - Accessibility,
 - Relative location downstream or upstream in the system, and
 - Coordination with nearby infrastructure projects.
2. Fund 32 is the Norman Utilities Authority Wastewater Reclamation Facility Fund that accounts for revenues associated with existing customers and ongoing accounts.
3. A 25 member, Council-appointed, Implementation Committee, will prioritize improvements to both the interceptors and the treatment plant with the assistance of staff. For interceptors, the committee might consider the following factors:
 - Sales tax funded project scope should be appropriate to allow funding on a “pay-as-you-go” basis.
 - Those interceptor segments shown to be most severely overloaded under the existing wastewater loading should be most highly rated. Similarly, those becoming overloaded under an obligated loading would have a higher priority than one becoming overloaded under full build-out. Expressed differently, those interceptors needing only a small increase in capacity to meet full build-out demands would have a higher priority than interceptors needing a large increase in capacity.
 - Downstream interceptor segments should generally be of higher priority than upstream segments. Interceptor projects in separate drainage basins can occur simultaneously as they are not interdependent.
 - Since excise tax funding is expected to lag behind sales tax funding, interceptor segments that are the same size under both the obligated and the full build-out scenarios might be funded first. Generally, this implies the service area is close to being fully developed, or a portion of the existing flow will be diverted to the proposed northern wastewater treatment plant.
 - Parallel interceptors might have a lower priority than a replacement interceptor might since additional rights-of-way may need to be acquired for parallel interceptors. Right-of-way/easement acquisition often delays project start-up.
 - The new interceptors serving existing customers in the Lift Station D service area must be timed to come on-line concurrently with the proposed northern wastewater treatment plant. Design and right-of-way acquisition for these interceptors might have a high priority while construction might be delayed several years.
4. In FYE 2015 Council approved transferring the sewer line maintenance operations out of the Sewer Line Maintenance Fund into the Water Reclamation Fund in order to better track the collection and distribution of the \$5 per month sewer maintenance fee.
5. Funding for two projects is scheduled in FYE 25 totaling \$3,800,000.

City of Norman
Capital Improvement Project Sheet
Fiscal Year Ending 2025

Project Title: <u>Water Reclamation Facility Upgrades</u>	Project Type: <u>Water Reclamation</u> <input type="checkbox"/>
Project Category: <u>Water Reclamation Facility</u>	Project Number: <u>WW</u>
Department: <u>Utilities</u>	Account Number: _____
Manager: <u>Peter Wolbach</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2028</u>
Ward(s): <u>All</u>	Life Expectancy: <u>25</u>

Detailed Project Description:

The Water Reclamation Facility had a project completed in 2017 to significantly upgrade the plant but there were still many components that were unable to be addressed as part of that project plus regular, ongoing upgrades will be need for any wastewater facility to keep it operating efficiently and within permit limits.

1. Inspection, rehabilitation, and coating of two secondary clarifiers that were installed in 1999.
2. Inspection, rehabilitation, and coating of a secondary pump station with two wet wells. Additionally, rewiring of pumps and drains will be fixed.
3. Inspection, rehabilitation, and coating of two sludge wet wells and associated drain valves to properly convey sludge to thickening units.
4. Modifications to reclaimed water system to reduce the need for potable water at the facility.
5. Replacement of fine screens for Westside Lift Station.
6. Upgrading of PLCs used to control equipment within the WRF to ensure proper security and operations.

Funding may be insufficient to complete all of this work in FYE2025 but additional work will be completed in later years as additional funding comes available. Work will be prioritized based on level and consequence of failure.

SEWER MAINTENANCE FUND

CAPITAL IMPROVEMENTS PLAN

SEWER MAINTENANCE FUND – 321

ASSUMPTIONS

1. Primary factors affecting project selection and priorities include:
 - Compliance with EPA administrative orders,
 - Relative impact on other parts of the sanitary sewerage system,
 - Maintenance history and service calls,
 - Inspections,
 - Wastewater Master Plan recommendations,
 - Accessibility,
 - Relative location downstream or upstream in the system, and
 - Coordination with nearby infrastructure projects.
2. New sources of revenue were approved by voters on August 14, 2001 became effective October 1, 2001 and are:
 - Sewer Maintenance (Fund 321) - \$5 per month, sewer service maintenance rate charged to each residence, apartment, business or mobile home receiving sewer service in the City; to be used for establishing an upgraded sewer maintenance program and not to pay debt service.
3. A 25 member, Council-appointed, Implementation Committee, will prioritize improvements to both the interceptors and the treatment plant with the assistance of staff. For interceptors, the committee might consider the following factors:
 - Sales tax funded project scope should be appropriate to allow funding on a “pay-as-you-go” basis.
 - Those interceptor segments shown to be most severely overloaded under the existing wastewater loading should be most highly rated. Similarly, those becoming overloaded under an obligated loading would have a higher priority than one becoming overloaded under full build-out. Expressed differently, those interceptors needing only a small increase in capacity to meet full build-out demands would have a higher priority than interceptors needing a large increase in capacity.
 - Downstream interceptor segments should generally be of higher priority than upstream segments. Interceptor projects in separate drainage basins can occur simultaneously as they are not interdependent.
 - Since excise tax funding is expected to lag behind sales tax funding, interceptor segments that are the same size under both the obligated and the full build-out scenarios might be funded first. Generally, this implies the service area is close to being fully developed, or a portion of the existing flow will be diverted to the proposed northern wastewater treatment plant.
 - Parallel interceptors might have a lower priority than a replacement interceptor might since additional rights-of-way may need to be acquired for parallel interceptors. Right-of-way/easement acquisition often delays project start-up.
 - The new interceptors serving existing customers in the Lift Station D service area must be timed to come on-line concurrently with the proposed northern wastewater treatment plant. Design and right-of-way acquisition for these interceptors might have a high priority while construction might be delayed several years.
4. In FYE 2015 Council approved transferring the sewer line maintenance operations out of the Sewer Line Maintenance Fund into the Water Reclamation Fund in order to better track the collection and distribution of the \$5 per month sewer maintenance fee.
5. Three projects are scheduled for funding in FYE 25 totaling \$5,880,000.

Department: <u>Utilities</u>	Account Number: <u>32193338</u>
Manager: <u>Peter Wolbach</u>	Begin & End Dates: <u>7/1/2021 To 6/30/2026</u>
Ward(s): <u>2 and 8</u>	Life Expectancy: <u>50 years</u>

Detailed Project Description:

In 2001, the citizen's of Norman approved a Sewer Maintenance Fee of \$5 per month per household to be deposited in the Sewer Maintenance Fund 321. New projects are funded annually with funding utilized for design, inspection and construction activities which will repair or replace our aging sewer collection system including sewer lines and lift stations.

ORIGINAL SCOPE
 Annual rehabilitation project is generally bounded by Westridge Terrace to the west, W. Boyd St. to the North, Wiley Road to the East, and Lindsey Street to the south. Additional lines may be added by staff if funding is available. Repair to or replacement of about 21,100 feet of sewer is needed in the project area, subject to adjustments by staff due to unforeseen system operational considerations. Alternates may be bid, but are not identified yet.

REVISED SCOPE
 Based on current system condition and frequency of maintenance by staff, the location of this project is being changed to cover two different areas:
 1. Lines north of Dakota Street and east of Fairway Drive up to the golf course; and
 2. Lines between Stubbeman Avenue and Porter Avenue and generally north of Mimosa Drive.
 These areas include approximately 18,200 linear feet.

The portion originally programmed for FYE 2022 has been moved to FYE 2027.

Manager: <u>Jared Mattern</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2025</u>
Ward(s): <u>6</u>	Life Expectancy: <u>20 years</u>

Detailed Project Description:

This is an annual project to rehabilitate lift stations and associated appurtenances; funds remaining at end of fiscal year are returned to fund balance. Design life of a lift station is twenty years; future projects to be determined based on need. FYE 25 project is to rehabilitate pumps, valves and electrical control panels at the Park Hill Lift Station.

Reimbursable Account?

Is This Project Funded From More Than One Source? No If Yes, Please Specify Which Sources:

SEWER NEW DEVELOPMENT FUND

CAPITAL IMPROVEMENTS PLAN

NEW DEVELOPMENT EXCISE TAX FUND –322

ASSUMPTIONS

1. Primary factors affecting project selection and priorities include:
 - Compliance with EPA administrative orders,
 - Relative impact on other parts of the sanitary sewerage system,
 - Maintenance history and service calls,
 - Inspections,
 - Wastewater Master Plan recommendations,
 - Accessibility,
 - Relative location downstream or upstream in the system, and
 - Coordination with nearby infrastructure projects.
2. New sources of revenue were approved by voters on August 14, 2001 and became effective October 1, 2001:
 - New Development Excise Tax (Fund 322) – an excise tax on new residential and commercial development to be served by the sewer system. This revenue is to be used for future improvements and expansion to the city’s wastewater system. The amount generated is dependent on growth, but is anticipated to be \$2 million per year. Projects will be funded primarily Pay Go and debt financed as needed.
3. A 25 member, Council-appointed, Implementation Committee, will prioritize improvements to both the interceptors and the treatment plant with the assistance of staff. For interceptors, the committee might consider the following factors:
 - Sales tax funded project scope should be appropriate to allow funding on a “pay-as-you-go” basis.
 - Those interceptor segments shown to be most severely overloaded under the existing wastewater loading should be most highly rated. Similarly, those becoming overloaded under an obligated loading would have a higher priority than one becoming overloaded under full build-out. Expressed differently, those interceptors needing only a small increase in capacity to meet full build-out demands would have a higher priority than interceptors needing a large increase in capacity.
 - Downstream interceptor segments should generally be of higher priority than upstream segments. Interceptor projects in separate drainage basins can occur simultaneously as they are not interdependent.
 - Since excise tax funding is expected to lag behind sales tax funding, interceptor segments that are the same size under both the obligated and the full build-out scenarios might be funded first. Generally, this implies the service area is close to being fully developed, or a portion of the existing flow will be diverted to the proposed northern wastewater treatment plant.
 - Parallel interceptors might have a lower priority than a replacement interceptor might since additional rights-of-way may be required for parallel interceptors. Right-of-way/easement acquisition often delays project start-up.
 - The new interceptors serving existing customers in the Lift Station D service area must be timed to come on-line concurrently with the proposed northern wastewater treatment plant. Design and right-of-way acquisition for these interceptors might have a high priority while construction might be delayed several years.
4. There are no projects scheduled for FYE 25.

SANITATION FUND

CAPITAL IMPROVEMENTS PLAN

SANITATION FUND - 33

ASSUMPTIONS

1. All Projects are scheduled on a pay-go basis and cannot be funded until and unless the voters approve a revenue rate increase and/or revenue bonds.
2. Revenues from the Sanitation Fees shall be used for construction of new facilities or maintenance of existing facilities.
3. One project is scheduled for funding in FYE 25 in the amount of \$600,000.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Sanitation Storage Facility</u>	Project Type: <u>Sanitation</u>
Project Category: <u>Building and Grounds</u>	Project Number: <u>SA0024</u>
Department: <u>Utilities</u>	Account Number: <u>33999975</u>
Manager: <u>Nathan Madenwald</u>	Begin & End Dates: <u>7/1/2023 To 6/30/2025</u>
Ward(s): <u>7</u>	Life Expectancy: <u>40</u>

Detailed Project Description:

Determine the need for a new storage facility for the Sanitation Division within the yard area near the recently constructed Sanitation Container Maintenance Building by completing a study to confirm need and determine location of a building.

CAPITAL FUND

CAPITAL IMPROVEMENTS PLAN

CAPITAL FUND – 50

ASSUMPTIONS

1. Capital Fund revenues are primarily received from 70% of one percent of sales tax (0.7%), per referendum of September 1976. Their purpose is to finance General Fund related capital needs. Revenue amounts are projected to increase at annual growth rates based on trend line analysis.
2. New capital sales tax revenue will be generally allocated as follows:
 - 5% General Contingency – reserved for inflation and unanticipated needs; (changed from 7% in FYE 24).
 - 7% Maintenance of Existing Facilities – preventive maintenance needs; (changed from 5% in FYE 24).
 - 5% Information Technology Infrastructure - major hardware and software updates (Proposed addition in FYE 25).
 - 27% Capital Outlay – major equipment such as vehicles and computer hardware;
 - 20% Street Maintenance – life extending treatments to public streets and drainage ways, one street crew and one drainage crew; and (proposed change from 25% in FYE 25)
 - 36% Pay-As-You-Go (PAYGO) projects not eligible for an enterprise fund revenues, Debt Service for the 1992 General Obligation Bonds, transfer to Arterial Road Recoupment Fund and salaries for city personnel working on capital projects.

Allocation of New Sales Tax

3. Until a Drainage Utility is created for future funding of storm water drainage projects, such projects will be funded from capital sales tax revenues.
4. As feasible, the City will pursue funding from all eligible sources (such as the State and Federal governments, as well as private interests), when pursuing street and intersection improvements and it is assumed they will participate at the eligible funding levels.
5. Park development projects will be phased on a PAYGO basis, using city funds, private contributions, and Federal or state assistance. Park Development Fees (Fund 52) will also be available for construction of Community and Neighborhood Parks.
6. It is assumed that improvements and expansion of existing neighborhood parks is more important than acquiring and constructing new neighborhood facilities, unless it involves undeveloped neighborhood parks in areas with growing demand for services. Further, land desired for future community park and open space needs should be acquired at the earliest possible date in order to preserve it from being otherwise developed.
7. The City will explore the option of selling bonds to advance major projects, due to a lack of other available revenues.

8. Periodically, the private sector participates in project expenses through impact fees.
9. See Figures in the Appendix and individual project sheets for locations of specific projects.
10. Beginning in FYE 08, the Capital Fund began subsidizing the Westwood Fund by means of transfers. These funds are spent on capital projects and capital equipment. In FYE 24, \$75,897 is proposed for Golf Course equipment.
11. The Electorate approved a sales tax for public safety (referred to herein as Public Safety Sales Tax, PSST) on May 13, 2008 and an extension of the PSST on April 1, 2014, earmarking part of the proceeds for construction, equipping and staffing of two new fire stations and other police and fire related capital purposes. These have been included in the capital budget as Fire Station 8, Fire Station 9 and the Smalley Center. The sales taxes will be transferred from the General Fund to the Capital Fund at the rate of expenditures.
12. In previous years, the Capital Fund paid for personnel working on capital projects by transferring from the Capital Fund to non-enterprise funds. Beginning in FYE 2012, salaries and benefits will be paid directly from the Capital Fund. Personnel include: 2 CIP Engineers, 1 Traffic Engineer, 2 Capital Project Managers, a Staff Engineer, 25% of an Engineering Assistant, 50% of the Storm Water Program Manager, 70% of a Park Planner I, 60% of a Park Planner II, 80% of a Construction Inspector 50% of a Construction Inspector, 80% of Utility Coordinator, and 15% of a Parks Manager. Two new capital project engineers were added in FYE 17.
13. In August, 2012 a General Obligation Bond referendum was approved (\$42,575,000) for street maintenance program. Some of these were previously partially funded with Capital Sales Tax. The Pay-Go funding will be reallocated to other needs as Council reviews specific projects.
14. In April, 2016 a General Obligation Bond referendum was approved (\$25,360,000) for continuation of the previous street maintenance program with additional street locations. This was funded with a temporary property tax.
15. In April, 2019 a General Obligation Bond referendum was approved (\$72,000,000) for transportation projects. This is funded with a temporary property tax.
16. On April 6, 2021 a General Obligation Bond referendum was approved (\$27,000,000) for continuation of the previous (2016) street maintenance program with additional street locations and the addition of a preventative maintenance program. This is funded with a temporary property tax.
17. On October 10, 2023 a General Bond referendum was approved (\$50,000,000) for bridge maintenance projects. This is funded with a temporary property tax.

Project Title: Enterprise Hardware Infrastructure Project Type: Information Technology
 Project Category: Information Technology Project Number: _____
 Department: IT Account Number: _____
 Manager: Robert Gruver Begin & End Dates: 1/7/2024 To 1/7/2028
 Ward(s): ALL Life Expectancy: 7 years

Detailed Project Description:

The city technology hardware Infrastructure requires ongoing funding for expansion, support, and replacements. This infrastructure is critical to the technical operations of all City services. The infrastructure includes disk backup and replication, application server hardware, file systems hardware, storage hardware, and general network hardware. If this equipment is not maintained on an ongoing basis the city enterprise hardware infrastructure would be at risk of an outage by a hardware failure or a security incident (no security updates for end of support hardware) that could affect all City services.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Park Parking Lot & Sidewalk Maintenance</u>	Project Type: <u>Parks & Recreation</u>
Project Category: <u>Parks and Recreation</u>	Project Number: <u>EF0012</u>
Department: <u>Parks and Recreation</u>	Account Number: <u>50196677</u>
Manager: <u>Bethany Grissom</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2030</u>
Ward(s): <u>All</u>	Life Expectancy: <u>25 Years</u>

Detailed Project Description:

This is an annually occurring project that was put in place several years ago to provide funding on an as-needed basis for repair and/or replacement of various paved surfaces in Norman Parks. We are always assessing the condition of our park facilities; and prioritizing the replacement needs of all of the standard features at any given park. We also experience regular instances of unforeseen damage to parking lots and sidewalks, which make those parks move up the list for quicker replacement of these things. We do not have a set list of where funds will be spent each fiscal year; however, the funds are always used to help us continue to provide high-quality parks for the citizens of Norman. Parking lots need regular re-striping and other maintenance as they get used. Sidewalks can often be damaged after storm events, when utility trucks and other heavy equipment must be used in the parks to remove or repair damaged areas on an emergency basis. Other paved areas experience cracks and breaks over time which need replacement.

Operating Impact: Negligible Fund(s) Impacted

Starting in 2025, we are requesting that the annual budget be raised from \$40,000 to \$65,000 per year. This will help cover costs associated with the large increase in parking lots and sidewalks that have come with the completion of several Norman Forward projects at Griffin & Reaves Parks, the Senior Wellness and the YFAC.

Project Title: <u>Park Sports Lighting Maintenance</u>	Project Type: <u>Parks & Recreation</u>
Project Category: <u>Parks and Recreation</u>	Project Number: <u>EF0017</u>
Department: <u>Parks and Recreation</u>	Account Number: <u>50196677</u>
Manager: <u>Wade Thompson</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2030</u>
Ward(s): <u>All</u>	Life Expectancy: <u>20 Years</u>

Detailed Project Description:

This is an annually occurring project that was put in place several years ago to provide funding on an as-needed basis for repair and/or replacement of various parts associated with sports fields and courts in Norman Parks. We are always assessing the condition of our lighted sports play areas. These lighting systems require regular replacement of bulbs, fuses, switches, contactors and other components, which wear out over time and with increased use. We do not have a set list of where funds will be spent each fiscal year; however, the funds are always used to help us continue to provide high-quality recreation opportunities for the citizens of Norman. These funds are most often used at the baseball and softball fields at Reaves Park and Little Axe Park, the Soccer Fields at Griffin Park and the Tennis courts at Westwood Park. We also have lights at the Blake Baldwin Skatepark in Andrews Park, at Rotary Park, Lions Park and a few other parks, where a large cost is associated with the need for a large bucket truck to access the larger poles. We often schedule replacements for multiple parts at one time at our larger multi-field parks, in order to not pay for multiple mobilizations of a large bucket truck several times in any given time period.

: Expenditure Schedule Through Account 50196677 by Fiscal Year:

Operating Impact: Negligible Fund(s) Impacted

As we replace the lighting systems in our parks, we are converting to LED lights and remote access controls, which will greatly reduce replacement needs for bulbs and extend the life span of most of the parts associated with our field and court lighting. We are asking for a 1-year increase in FYE25 to replace lights at Lions Park Tennis Court.

Detailed Project Description:

The 12th Avenue Recreation Center has been the home to countless programs and events over the years. It has hosted after-school programming and summer camps every day for decades, has been home to basketball leagues, volleyball, pickleball, martial arts, aerobics and may other sports, and was the original location for the Daddy-Daughter Dance and Mummy-Son Masquerade Ball when those programs started. It is our only stand-alone recreation center; and it will continue to offer programming and daily use after we open the new Young Family Athletic Center in 2023. Over the years, we have made several upgrades to the mechanical systems, finishes, floors and furnishings in various parts of the building. Now it is time to continue that program, and modernize other spaces in the building. This request is intended to fund replacement of the floors, walls, built-in fixtures and audio/video capabilities of the after-school room and game room in the building. We also are including a second year of funding request to add a digital sign outside the facility that can be used to advertise our programming and post open/closed/event time/league information on a continually changing basis.

Detailed Project Description:

Facilities Maintenance oversees 47 occupied facilities and 72 unoccupied facilities. 11 of the occupied facility heating, ventilation & air conditioning (HVAC) systems are monitored, regulated and scheduled through "Automated Logic" software that enables system optimization, energy-efficiency and rapid troubleshooting with pinpoint accuracy. This project will enable Facilities Maintenance to expand this oversight to 3-5 additional facilities per year, with the end-goal of incorporating all occupied facilities into the software portfolio. The targeted facilities for FYE24 include: Fire Stations #2, 3 & 9. Includes whole Facility, to include associated IT rooms.

Operating Impact: High General Fund

This project would be to retro fit our existing buildings to include Automated Logic. Once most or all are retro-fitted the project would be closed out. Having this would reduce down time and extend the life of equipment. All new facilities are being equipped with this software and has proved to be extremely valuable to the operation of facility maintenance. We regularly know the problem prior to being on-site and can resolve quickly.

Operating Impact: High General funds

Facilities Maintenance typically receives 5-10 roof leak calls per rain event. This project will establish a long-term roof program to proactively address roof repairs, rehabilitations and replacements. The request is substantially higher than usual for a new program of this type but the overall condition of City facility roofs is lacking in a geographical area prone to extreme weather events.

Operating Impact: High General Funds

The summer of 2022 exposed notable vulnerabilities to the City's aging HVAC assets, inadequate resources to address hi-volume failures and the lack of a codified asset life-cycle replacement strategy. Facilities Maintenance is in the process of auditing and assessing more than 500 City HVAC assets and contrasting their condition and service life to American Society of Heating, Refrigerating and Air-Conditioning Engineers life-cycle criteria. The objective of this program is to forecast and program asset rehabilitation or replacements across the enterprise, in a manner that the investment is smooth and distributed versus turbulent and costly.

Ward(s): _____	Life Expectancy: <u>6-12</u>

Detailed Project Description:

This is an annually occurring project that was put in place several years ago. This fund was first used to change out older style florescent light fixtures to the T100 style then transitioned into retro-fitting of LED light fixtures. There are still many city buildings that have Florescent tube light fixtures.

Replacing fluorescent lights and fixtures with LED fixtures provide many positive results. They are more energy efficient and convert most of their energy into light, not heat, They last longer and require less frequent replacement. (most come with 6 year replacement warranty) They are safer and do not contain any toxic materials or emit UV rays. They are brighter and more omnidirectional, providing even and consistent illumination.

A majority of the City facilities are powered by OG&E. Some of these building qualify for energy savings rebates. These are instant rebates at the time of purchase of the fixture (s). The savings per fixture can be from a 20% to a 70% savings. We see on average for a 2x2 or 2x4 fixture a savings of 50%!

Project Title: <u>Capital Plumbing Replacement</u>	Project Type: <u>Parks & Recreation</u>
Project Category: <u>Building and Grounds</u>	Project Number: <u>EF1008</u>
Department: <u>Parks and Recreation</u>	Account Number: <u>50595540</u>
Manager: <u>Lance Harper</u>	Begin & End Dates: <u>7/1/2023 To 6/30/2028</u>
Ward(s): <u>All</u>	Life Expectancy: <u>15-20 Years</u>

Detailed Project Description:

This project repairs, rehabilitates and replaces plumbing systems that have exceeded their projected lifecycle, have high-volume failures, elevated criticality to the City's mission and/or "hard broke" assets. These projects shall be inspected, coordinated and performed by City Staff workers or third-party contractors to achieve efficient and economical conclusion. A portion of this project funding shall be allocated to achieve Hot-water and boiler inspections for all of City facility hot-water and boilers annually as required by the state of Oklahoma department of Labor. They shall be priority-ranked for repair, rehabilitation and replacement.

Operating Impact: High General Fund

Facilities Maintenance receives >2,000 calls throughout the year. This project will establish a long-term plumbing capital improvement program to proactively hot water heaters and other large plumbing repairs, rehabilitations and replacements. The request is for a new capital account of this type for plumbing. As we recently learned some of the hot water heaters in the high efficiency buildings have considerably high cost for replacement and would like to have the funds available for proactive hot water heater replacement and plumbing upgrades for buildings in need.

Project Title: Library furniture replacement Project Type: Parks & Recreation
 Project Category: Building and grounds Project Number: _____
 Department: Parks and Recreation Facilities Account Number: _____
 Manager: Lance Harper Begin & End Dates: 7/1/2024 To 6/30/2029
 Ward(s): 7 Life Expectancy: 10 years

Detailed Project Description:

East Library was a LEED project build completed approximately ten years ago. The furniture inside the library is the original furniture. This library, along with Central Library are used on a daily basis and have see a high number of patrons throughout the year. The libraries also host to educational, art and reading classes, they also host numerous programs and meetings. The libraries are a vital part of the City of Norman. The furniture within these buildings are starting to show their age. By starting a revolving replacement program for the furniture in these two buildings it will allow these two beautiful buildings to be inviting, clean and with safe, functional seating. The replacement of furniture will be based on usage, condition and safety.

 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Westwood Golf & Tennis Shops Project</u>	Project Type: <u>Parks & Recreation</u>
Project Category: <u>Parks and Recreation</u>	Project Number: <u>EF</u>
Department: <u>Parks & Recreation</u>	Account Number: <u>50-</u>
Manager: <u>James Briggs</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2025</u>
Ward(s): <u>8</u>	Life Expectancy: <u>25 years</u>

Detailed Project Description:

Although there have been recent construction projects for the Westwood Family Aquatics Center and Westwood Tennis Indoor Facility, there has not been any recent project to address the maintenance of the pro shop facilities for Golf and Tennis at the park. Combined with this, is the damage each facility received in 2021 from a series of hail storms at the park. The Mansard roof on the golf pro shop (the nearly vertical metal roof fascia that extends down on the edge of the covered walkways around the building) sustained significant damage to the paint from all of the impact; plus there are areas of the fascia and ceiling of the covered walkways that have been damaged over the years that need repair. There are also several windows in the golf shop that need to be re-sealed and then re-painted after repair. Also, the interior of the tennis shop needs to be painted and have it's floors re-sealed after a decade of heavy use, since the shop was expanded through a combination of donated funds and city funds. This project is part of the Existing Facility Maintenance Project category for all city of Norman properties. The Aquatic Center was built in 2017, and only needed minor hail damage repair after the 2021 storms. All interior surfaces inside the aquatics facility are in good shape. All facilities at Westwood will receive constant evaluation to insure they are maintained at the level of appearance and service that citizens expect.

: Expenditure Schedule Through Account 50- by Fiscal Year:

Account & Object	Total ALL Fiscal Years	Actual Prior Years	Budget FYE 2024	FYE 2025	FYE 2026	FYE 2027	FYE 2028	FYE 2029	Beyond 5 Years

Project Title: Emergency projects & contingency Project Type: Buildings and Grounds
 Project Category: Parks and Recreation Project Number: _____
 Department: Facilities Account Number: _____
 Manager: Lance Harper Begin & End Dates: 7/1/2024 To 6/30/2025
 Ward(s): All Life Expectancy: 5 years

Detailed Project Description:

This funding would be used for emergency situations, for example the recent pipe freezing and damage to the Development Center. The funds could also be used when a project runs over budget because of unforeseen circumstances or prices increases. Many Capitol improvements projects are priced 4-8 months before the work will start. Many times the increase in material has pushed a project over the original project budget amount. This fund, with the approval of the City Manager, would be used for any short comings in a project or in case of a emergency project.

Manager: <u>Scott Sturtz</u>	Begin & End Dates: <u>1/1/2009 To</u>
Ward(s): <u>All</u>	Life Expectancy: <u>N/A</u>

Detailed Project Description:

In January 2009, Council adopted a new policy involving the creation of a project account called the ODOT Audit Adjustment Account with \$100,000 dedicated to payment of ODOT final invoices. The intent of the policy was to replenish the account each budget year up to the balance of \$100,000. Establishing this account, creates a process for all pending project accounts to be closed and the remaining project funds transferred back to the Capital Fund balance to be available for other projects. Since ODOT's final audit process takes three to seven years to complete, it was felt this process would free up the unencumbered project funds more quickly.

Ward(s): <u>All</u>	Life Expectancy: <u>20 Years</u>

Detailed Project Description:

In the 2018 Kimley-Horn Self Evaluation and Transition Plan, 2020 McIntosh Evaluation and the 2021 Transit Transition Plan, it is noted that there were \$6,929,987.00 in deficiencies identified. In order to remediate these deficiencies and make Norman a more inclusive City, there is the need to secure, \$340,651.00 per year for the next 20 years. An Addendum to the 2018 Transition Plan was completed in 2021 with the addition of the 2021 Transit Transition Plan that totaled \$86,214.00, which was included in funding in FYE 2023. Additional ADA evaluations are ongoing throughout the City of Norman including 58 parks, 52 existing buildings and over 700 miles of infrastructure consisting of sidewalks, signalized intersections and non-signalized intersections.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Regional Transportation Authority</u>	Project Type: <u>Transportation City Funding Only</u>
Project Category: <u>Other - Special Traffic Improvement</u>	Project Number: <u>TC0047</u>
Department: <u>Public Works</u>	Account Number: <u>50593391</u>
Manager: <u>Taylor Johnson</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2025</u>
Ward(s): <u>All</u>	Life Expectancy: <u>10+ years</u>

Detailed Project Description:

This project will support the Regional Transportation Authority (RTA) of Central Oklahoma as it continues to study and plan for intercity public transportation services in the Oklahoma City Metropolitan Area. Since forming in 2019, the RTA has adopted a Transit System Plan, completed the alternative analysis for the corridors (North/South and East), and selected an alternative for each. The RTA is also studying a West and Airport Corridor. Work continues by the RTA's contractors to finalize what improvements need to be made to construct the system and thus produce plans and cost estimates for the North/South and East Corridors. This will lead to a proposed ballot initiative in the near future to the region's voters to approve the local funding mechanism to construct and operate the system. Federal funding would also be pursued to compliment the regional local funding.

Project Title: <u>Sidewalk Horizontal Saw Cut Program</u>	Project Type: <u>Transportation City Funding Only</u>
Project Category: <u>General Maintenance</u>	Project Number: <u>TC0155</u>
Department: <u>Public Works</u>	Account Number: <u>50594407-46101</u>
Manager: <u>Scott Sturtz</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2025</u>
Ward(s): <u>All</u>	Life Expectancy: <u>20 Years</u>

Detailed Project Description:

This project locates non-ADA compliant sidewalks and makes minor repairs and identifies locations for larger repairs. This project leverages horizontal saw cutting technology to eliminate trip hazards less than two inches in height, which is 70% more cost-effective than conventional repair by replacement of concrete method. Specific project areas will be selected by City Staff based on density of hazards which can be remedied via horizontal saw cutting methods and submit the proposal to City Council for approval. City staff will source a contractor to perform work based on a cost per inch-feet of cuts and direct work up to the budget amount.

 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Network Switch Replacement</u>	Project Type: <u>Buildings and Grounds</u>
Project Category: <u>Building Grounds</u>	Project Number: <u>BG071</u>
Department: <u>Information Technology</u>	Account Number: _____
Manager: <u>Robert Gruver</u>	Begin & End Dates: <u>1/7/2023 To 6/30/2028</u>
Ward(s): <u>ALL</u>	Life Expectancy: <u>7 - 10 years</u>

Detailed Project Description:

The City of Norman Network Switching infrastructure needs replacement. We have 91 network switches that are end of life and end of support. These switches in some cases are over 10 years old. They have served the City well but need to be replaced for support and performance reasons. These switches are the main infrastructure that provides network services from the PC to the Server. Without them we do not have the ability to provide and computer services to the employees or the public. City computer services have expanded and increase significantly in the last 10 years and we need to increase the performance of the network infrastructure to meet this expansion in services.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>GIS Base Map Update</u>	Project Type: <u>Maintenance of Existing Facilities</u>
Project Category: <u>Geographic Information systems</u>	Project Number: <u>BG0074</u>
Department: <u>Planning</u>	Account Number: <u>5095533-46201</u>
Manager: <u>Joyce Green</u>	Begin & End Dates: <u>12/17/2024 To 12/31/2025</u>
Ward(s): <u>All</u>	Life Expectancy: <u>2 yr primary usage, permanent archive.</u>

Detailed Project Description:

This project is standard maintenance of the GIS database. This project will update the City's base map to reflect new construction and any other changes on the ground, which have occurred since the last base map update was completed in 2023. The project will start in winter 2025 when leaf-off aerial photography will be collected. The deliverable products will be color orthoimagery and an update of the planimetric (structures, paving, etc.) base map & elevation data of entire city. The City may be able to coordinate this project with other ACOG agencies to reduce costs. It has three distinct components: aerial imagery with overlapping images that will allow accurate rectification and photogrammetric feature collection, which is budgeted at \$45,000; planimetric mapping, which is budgeted a \$100,000 and LiDAR collection and contour development, which is budgeted at \$80,000. The amount budgeted should allow the City of Norman to choose a data vendor from that will do the work in the United States.

 Fiscal Year Ending 2025

Project Title: <u>Park Site Amenities</u>	Project Type: <u>Parks & Recreation</u>
Project Category: <u>Parks and Recreation</u>	Project Number: <u>PR0013</u>
Department: <u>Parks & Recreation</u>	Account Number: <u>050-9973-452</u>
Manager: <u>Bethany Grissom</u>	Begin & End Dates: <u>7/1/2018 To 6/30/2030</u>
Ward(s): <u>All</u>	Life Expectancy: <u>25 years</u>

Detailed Project Description:

This project is for the upgrade and replacement of old and high-maintenance park amenities. Items such as old picnic tables and benches will be replaced. Concrete pads will be installed under new and existing amenities to protect them from mower damage and to provide an all-weather surface for the user. Also included could be such items as deteriorated or damaged grills, trash cans, drinking fountains, landscaping, bike racks, sports equipment, etc. The project will also be used to make improvements to the public landscape areas in the City, such as traffic islands/medians, landscapes at public buildings and downtown landscape areas, which all are subject to mechanical and environmental damage throughout the year and are often in need of minor replacements. Any major landscape renovations at these sites will be requested as a stand-alone project and funded accordingly.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Tree Program</u>	Project Type: <u>Parks & Recreation</u>
Project Category: <u>Urban Forestry</u>	Project Number: <u>PR0212</u>
Department: <u>Parks & Recreation</u>	Account Number: <u>50799966</u>
Manager: <u>Colin Zink</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2030</u>
Ward(s): <u>All</u>	Life Expectancy: <u>50 years</u>

Detailed Project Description:

Recent annual budget requests were approved to cover costs associated with hiring an outside forestry consultant group to perform an inventory of publicly managed trees, review our current tree ordinance and also develop an Urban Forest Management Plan (UFMP) to help guide the work of our Forestry Division for years to come. There has also been work done to help develop a plan to help protect the community from wildfires by partnering with the State Department of Forestry, which has funds available to help pay for wildfire mitigation programs. Before they can work on those projects, though, they need each town to have a Community Wildfire Protection Plan (CWPP) on file. The CWPP is a document that loops in all of the landowners, emergency responders, and residents onto the same page so that everyone knows what to do in the case of a wildfire. The CWPP also identifies high-priority mitigation projects (controlled fires, fire-breaks, vacant lot clearing, etc.) that should be done to lower the impact of a future wildfire. In Norman's case, we will work with each of the 9 Fire Station managers to identify the top one or two projects in their Fire Districts. Our Forester has submitted a federal CWDG grant application (Community Wildfire Defense Grant), and we are awaiting notice of an award, if any. So that we don't have to wait an additional year to start the CWPP process, we are requesting that funds be added to our FYE 2025 Tree Program budget to cover the costs of creating a CWPP and to fully fund the final parts of our Urban Forest Management Plan. If the grant is not awarded to Norman, then we will spend the requested funds on hiring a CWPP contractor right away. If the grant is awarded, then we can use that additional budget money towards the mitigation projects identified in the CWPP, once it's written.

: Expenditure Schedule Through Account 50799966 by Fiscal Year:

Account & Object	Total ALL Fiscal Years	Actual Prior Years	Budget FYE 2024	FYE 2025	FYE 2026	FYE 2027	FYE 2028	FYE 2029	Beyond 5 Years

Manager: <u>Jason Murphy</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2029</u>
Ward(s): <u>All</u>	Life Expectancy: <u>20 years</u>

Detailed Project Description:

This program is an ongoing annual program to address stormwater drainage deficiencies throughout the City. Specific locations are identified during each annual budget process. In FYE2024 a pipe failure on Boyd Street near the intersection of Lahoma Street was identified and an emergency repair was completed. During the repair additional damage was determined from Flood Avenue to University Boulevard along the stormwater pipe. Funds requested for FYE 2025 includes the additional location of Boyd Ave pipe replacement. Specific projects and funds are identified by fiscal year can be found on the attached sheet.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Drainage Rehabilitation Annual Project</u>	Project Type: <u>Stormwater</u>
Project Category: <u>Stormwater Drainage Sewer Systems</u>	Project Number: <u>DR New Project Number</u>
Department: <u>Public Works</u>	Account Number: <u>50599967</u>
Manager: <u>Jason Murphy</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2025</u>
Ward(s): <u>All</u>	Life Expectancy: <u>20 years</u>

Detailed Project Description:

The City of Norman’s Stormwater Division is responsible for the maintenance of a vast network of stormwater inlets, flumes, vegetated channels, and storm sewer lines. Many of the City’s inlets are decades old and built of brick and mortar. Over time, the brick and mortar inlets have demanded an outsized maintenance effort. Every year locations needing repair are reported to staff via citizen requests or during staff inspections, which allows staff to determine upcoming locations. This program funds these rehabilitation projects. These projects include repairing concrete flumes between houses, damaged or improperly sized storm sewer inlets and installation of new storm sewer inlets. This project will provide staff with the necessary funding to construct these small drainage projects. In so doing, it will produce a very positive citizen impact.

: Expenditure Schedule Through Account 50599967 by Fiscal Year:

Account & Object	Total ALL Fiscal Years	Actual Prior Years	Budget FYE 2024	FYE 2025	FYE 2026	FYE 2027	FYE 2028	FYE 2029	Beyond 5 Years

Project Title: <u>Lake Thunderbird Watershed TMDL</u>	Project Type: <u>Stormwater</u>
Project Category: <u>Stormwater Drainage Sewer Systems</u>	Project Number: <u>DR0061</u>
Department: <u>Public Works</u>	Account Number: <u>50599968</u>
Manager: <u>Jason Murphy</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2029</u>
Ward(s): <u>All</u>	Life Expectancy: <u>20 years</u>

Detailed Project Description:

On November 5, 2015, the City submitted Compliance and Monitoring Plans (Plans) to the Oklahoma Department of Environmental Quality (ODEQ) for their review. ODEQ approved the City's Plans on September 21, 2016, and the Council adopted the approved Plans on October 25, 2016, through Council Resolution R-1617-41. This was the culmination of a contract entered into by the City with Olsson Associates to develop a plan to bring the City's stormwater discharges into compliance with the Waste Load Allocations developed from the Lake Thunderbird TMDL. The City has completed the first 5 year cycle of the Compliance and Monitoring Plans and is working to establish a baseline for flow and pollutant loading of streams flowing from or through the City to Lake Thunderbird based on these data. The Compliance and Monitoring Plans will be updated for Years 6-10 of the TMDL, and a new monitoring contract has been established with the Oklahoma Water Resources Board. Pollutants to be monitored in Years 6-10 include nitrogen, phosphorus, and total suspended solids. BMPs will continue to be implemented as part of the City's Compliance Plan, including education campaigns and other pollutant reduction programs. The goal of these efforts is to reduce pollutants in stormwater runoff at the source.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Imhoff Creek Bank Stabilization</u>	Project Type: <u>Stormwater</u>
Project Category: <u>Stormwater Drainage Sewer Systems</u>	Project Number: <u>DR0062</u>
Department: <u>Public Works</u>	Account Number: <u>50595531</u>
Manager: <u>Jason Murphy</u>	Begin & End Dates: <u>7/1/2014 To 7/1/2028</u>
Ward(s): <u>2,4</u>	Life Expectancy: <u>10 years</u>

Detailed Project Description:

The banks of Imhoff Creek are severely eroded and destabilized. The purpose of this project is to provide an engineering study of the hydraulic and hydrologic functions of the stream above and below the Imhoff Road bridge and to provide the necessary analysis and design of a stabilization project to address the severe erosion on the banks of Imhoff Creek beginning at Highway 9 and continuing north approximately 4200 feet. This project is identified as Project IC-2 in the Storm Water Master Plan. Meshek and Associates have prepared a conceptual design for this section of Imhoff Creek. Due to the extent of repairs needed and the associated costs, the design recommended the stabilization work be conducted in two phase. The first phase will involve Imhoff Creek from below the Imhoff Road bridge to Highway 9. The second phase will stabilize the banks of Imhoff Creek north of Imhoff Road bridge and continuing north for approximately 4200 feet. The FYE 2025 funds being requested will continue the process of funding construction costs for Phases 1 & 2, which are estimated at approximately \$7.5 million.

Manager: <u>Joseph Hill</u>	Begin & End Dates: <u>7/1/2024 To 6/30/2025</u>
Ward(s): <u>All</u>	Life Expectancy: <u>20 Years</u>

Detailed Project Description:

Preventative maintenance are street maintenance strategies used to extend the life of pavement by protecting the street surface from the effects of aging, cracking, deterioration, and water infiltration. Prolonging the life of our city streets saves time and taxpayer money by intervening before full maintenance or reconstruction is needed. Preventative maintenance strategies can include crack sealing, chip sealing, micro-surfacing, slurry seal, and rejuvenators or any combination of actions.

NORMAN FORWARD SALES TAX FUND

CAPITAL IMPROVEMENTS PLAN

NORMAN FORWARD SALES TAX FUND - 51

ASSUMPTIONS

1. This fund accounts for the proceeds of specific revenue sources that are legally restricted to expenditure for specific purposes.
2. Some of the projects will be funded on a pay as you go basis. Some of the projects are of higher importance and greater costs, and therefore require borrowing funds through general obligation bonds.
3. In FYE 25, \$730,000 is scheduled for two pay-go funded projects. The individual projects' impacts on the operating budget may be significant because they are new and expanded facilities.

City of Norman
 Capital Improvement Project Sheet
 Fiscal Year Ending 2025

Project Title: <u>Neighborhood Park Improvements</u>	Project Type: <u>Parks & Recreation</u>
Project Category: <u>Parks and Recreation</u>	Project Number: <u>NFP101</u>
Department: <u>Parks & Recreation</u>	Account Number: <u>051-9830-452</u>
Manager: <u>Bethany Grissom</u>	Begin & End Dates: <u>7/1/2023 To 6/30/2030</u>
Ward(s): <u>All</u>	Life Expectancy: <u>25 years</u>

Detailed Project Description:

This project is designated to make improvements to all the neighborhood parks in the City of Norman. The level of improvement needed at each park varies from site to site; however, there is work to do at each park. Staff will prioritize and execute a plan for each park, in a way that maximizes our bidding prices each year to get the best value for similar improvement that may occur in the various parks. We will use the 2009 Parks and Recreation Master Plan as a guiding document for these improvements, along with continued staff evaluations of each park site on an annual basis to determine each park site's needs in the year when funding is available to tackle any given site. When possible, input from the neighborhoods served by each each park site will be gathered as part of the renovation process.

PARK LAND AND DEVELOPMENT FUND

CAPITAL IMPROVEMENTS PLAN

PARK LAND AND DEVELOPMENT FUND - 52

ASSUMPTIONS

1. Revenues are earmarked for capital improvements to neighborhood and community parks
2. The funds specifically designated for community public parks improvements can only be spent in Griffin Community Park, Reaves Community Park, Andrews Community Park, Sutton Urban Wilderness Area, John Saxon Park and Ruby Grant Park.
3. The funds specifically designated for neighborhood parks, paid with the building permit for any new dwelling, may be spent to improve the neighborhood public park serving that dwelling, or nearby park.
4. Neighborhood park improvements will be scheduled when the Parks Board and City Council determine that there have been sufficient residential units constructed to warrant a capital project and sufficient fees have been collected to construct the project. This information changes daily and is maintained by the Parks Department.
5. No new projects are scheduled for FYE 25.

UNIVERSITY NORTH PARK TIF FUND

CAPITAL IMPROVEMENTS PLAN

UNIVERSITY NORTH PARK TIF FUND - 57

ASSUMPTIONS

1. This fund accounts for proceeds of specific revenue sources that are legally restricted to expenditure for specific purposes.
2. Projects were identified and approved by City Council in accordance with the provisions of the Local Development Act.
3. The Tax Increment Finance District was created to facilitate development and improvements in an area where such improvement would not have otherwise occurred.
4. The University North Park Area includes land adjacent to 24th Avenue NW, between Robinson Street and Tecumseh Road.
5. No new projects are scheduled for FYE 25.

CENTER CITY TIF FUND

CAPITAL IMPROVEMENTS PLAN

CENTER CITY TAX INCREMENT FINANCE DISTRICT FUND - 58

ASSUMPTIONS

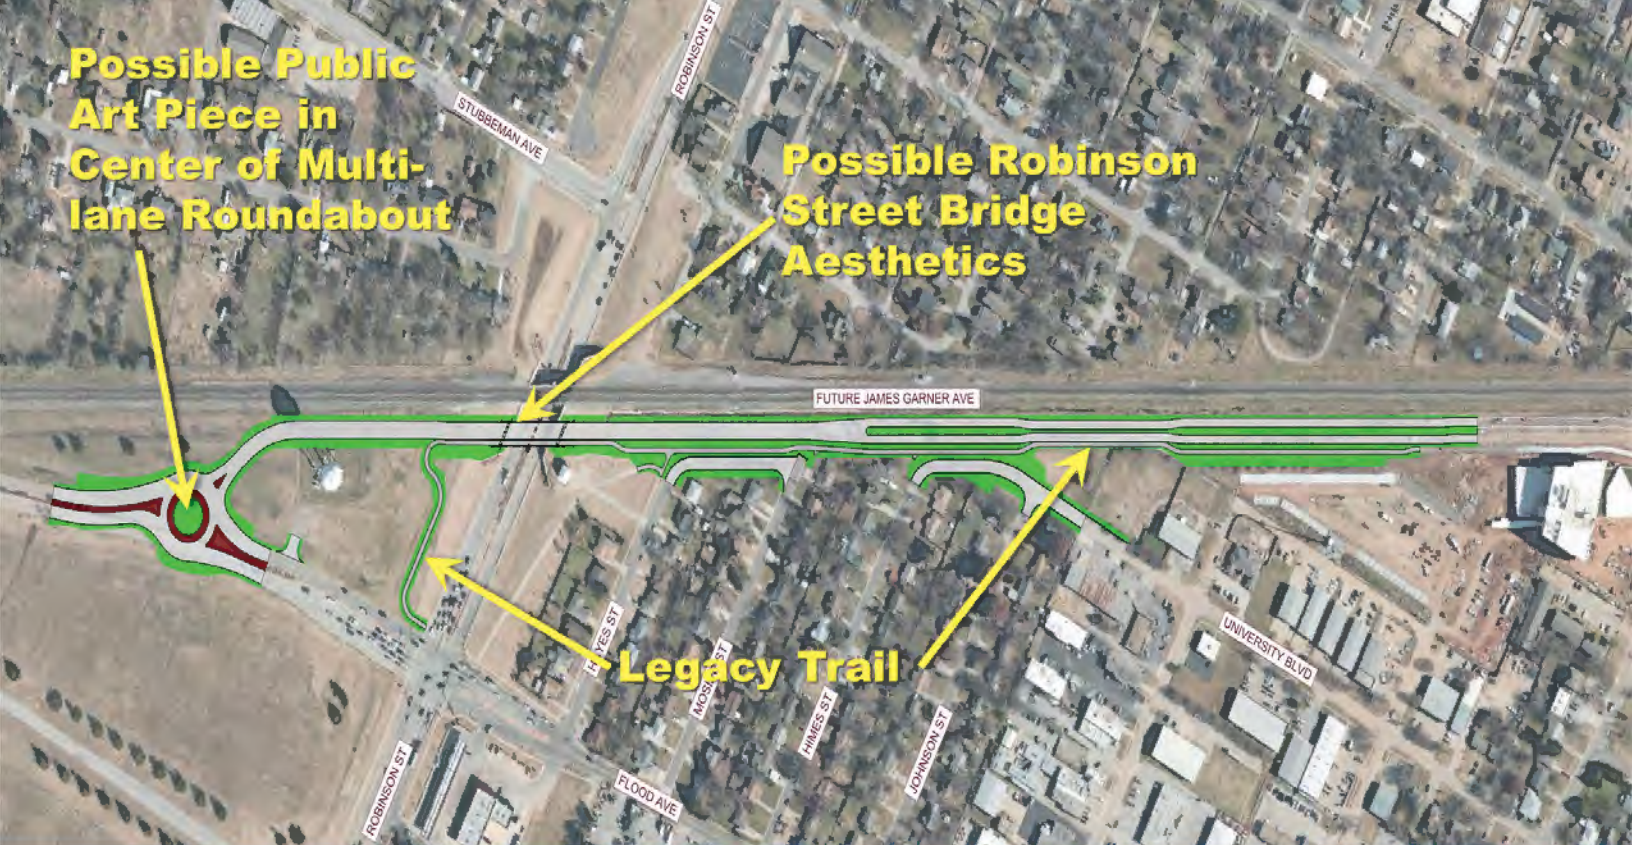

1. The Norman City Council adopted the Norman Center City Project Plan and Tax Increment Finance District No. 3 on December 19, 2017 (O-1718-27).
2. The project plan authorizes \$44,000,000 in project costs for public infrastructure, and an additional \$3,400,000 in projects costs for contingencies and implementation/administration costs.
3. The project plan authorizes 90 percent of the incremental tax revenue generated from increases in property taxes resulting from new private investment in the Increment District to be used to pay authorized project costs.
4. In FYE 25, there are no new projects scheduled.

ARTERIAL ROAD RECOUPMENT FUND

CAPITAL IMPROVEMENTS PLAN

ARTERIAL ROAD RECOUPMENT FUND - 78

ASSUMPTIONS

1. This fund accounts for the proceeds of a specific revenue that is legally restricted to expenditure for specific purposes.
2. Revenue is received from property owners either before development or at the time of land development for all local arterial street construction costs, which they would normally incur under development regulations.
3. Capital Sales Tax revenues, totaling \$2,947,732, were transferred from the Capital Fund (Fund 50) to this fund to create the initial funding, with the intent that future revenues would be received as land would be developed, and thereby there would be a revolving funding source to continue the program. The Capital Fund was repaid \$173,280 in FYE 02 and \$27,200 in FYE 07.
4. There is no new funding for projects in FYE 25. Additional project appropriations will be presented to council for consideration if they are identified.

GLOSSARY OF TERMS and ACRONYMS

ACOG – Association of Central Oklahoma Governments.

ADA – American Disabilities Act

AERATION – The addition of air or oxygen to water or wastewater, usually by mechanical means, increases dissolved oxygen levels and maintains aerobic conditions.

ARR – Arterial Road Recoupment.

ASSETS – Resources owned or held by the City, which have monetary value.

BASIN - An area defined by the network of sewer line segments that are tributary to and terminate at a designated and control point.

BIOSOLIDS – Solid organic matter recovered from municipal wastewater treatment that can be beneficially used, especially as a fertilizer. Biosolids are solids that have been stabilized within the treatment process, whereas sludge has not.

BOND - A written promise to pay a sum of money on a specific date and at a specified interest rate. The interest payments and the repayments of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation (GO) and revenue (Water/Sewer) bonds. These are most frequently used for construction of large capital projects, such as buildings and streets.

BUDGET - A plan of financial operation embodying an estimate of proposed means of financing them. The term usually indicates a financial plan for a single fiscal year. The term “budget” is used in two senses in practice. Sometimes it designates the financial plan presented to the City Council for adoption and sometimes it designates the plan finally approved by the body. It is usually necessary to specify whether the budget under consideration is preliminary and tentative or whether the appropriating body has approved it.

BUDGETARY CONTROL - The control or management of the organization in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available resources.

CAPITAL IMPROVEMENT CHARGE (CIC) – A charge placed upon all consumers and users for sewer or water service furnished by the City. The current CIC is \$1.00 per month for a residential customer. City code section 21-107(a)(1) requires the CIC amount to equal 60 percent of the actual monthly sewer charge for commercial and industrial customers. The CIC was implemented on March 24, 1970 as part of Ordinance 2156.

CIP – Capital Improvement Project or Capital Improvements Plan.

CAPITAL OUTLAY - Expenditures that result in the acquisition of or additions to fixed assets.

CAPITAL PROJECT FUNDS – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for financial resources segregated for the acquisition, construction or other improvement related to Capital Facilities other than those accounted for in Enterprise Funds and Trust Funds.

CLEANOUT - Outside access point on a property owner’s service lateral that allows for cleaning in the event of a blockage.

COLLECTION SYSTEM – In wastewater, a system of conduits, generally underground pipes, that receives and conveys sanitary wastewater and/or stormwater. In water supply, a system of conduits or canals used to capture a water supply and convey it to a common point.

COMCD – Central Oklahoma Master Conservancy District.

CONNECTION FEE – Previously known as the tap fee, was first developed in 1970. A charge for sewer or water connection based upon the size of the service line leading into and to be utilized for the furnishing of water or sewer to any use or structure. Monies received from the Connection charge are proportionally divided between the City of Norman’s Water and Wastewater funds. Collected fees are used to fund activities performed in both the water and sewer utility systems.

CORE AREA – The area bounded by Berry Road on the west, Robinson Street on the north, 12th Avenue on the east, and Constitution/Imhoff extended on the south.

COST ALLOCATION - Distribution of costs of centrally provided support services such as management, accounting, purchasing, payroll, information services and legal.

DEBT SERVICE - The City’s obligation to pay the principal and interest of general obligation and revenue bonds according to a predetermined payment schedule.

DISINFECTION – The selective destruction of disease-causing microbes through the application of chemicals or energy.

DIVISION - A sub-section of a Department which carries out a specific line of work assigned to the Department.

EFFLUENT – Partially or completely treated water or wastewater flowing out of a basin or treatment plant.

EID – Environmental Information Document is the document which provides the basic information about a project and its environmental effects.

ENCUMBRANCE - A commitment related to unperformed contracts or goods or services. Encumbrances represent the estimated amount of expenditures ultimately to result if unperformed contracts in process are completed.

ENTERPRISE FUND - A fund established to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

EPA – Environmental Protection Agency.

EXCISE TAX - An excise tax is any tax that is not an ad valorem tax and is generally imposed on the performance of an act, engaging in an occupation, or enjoying a privilege. An ad valorem property tax is a tax imposed on the basis of the “value of the article or thing taxed.” An ad valorem tax is usually imposed at recurring intervals on the same piece of property.

EXPENDITURES (EXPENSES) - Decrease in net total assets. Expenses represent the total cost of operations during a period regardless of the timing of related expenditures.

FACE VALUE (PAR, PRINCIPAL) – The full amount of an investment security, usually appearing on the face of the instrument.

FHWA – Federal Highway Administration.

FIDUCIARY FUNDS (TRUST & AGENCY FUNDS) – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for assets held by the municipality as trustee or agent for individuals, private organizations or other governmental units or purposes.

FISCAL YEAR (FY) - The time period designated by the City signifying the beginning and ending period for recording financial transactions. The City of Norman has a fiscal year of July 1 through June 30.

FIXED ASSETS - Long-lived tangible assets obtained or controlled as a result of past transactions, events or circumstances. Fixed assets include buildings, equipment and improvements other than building and land.

FUND - A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

FUND BALANCE - Fund Balance is the excess of assets over liabilities.

FUND BALANCE - RESERVED FOR DEBT SERVICE - A portion of fund balance that is legally restricted to the payment of long term debt principal and interest maturing in future years.

GENERAL FUND – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for all moneys received and disbursed for general governmental purposes.

GENERAL OBLIGATION BONDS (GO or GOB) - Legal debt instruments that finance a variety of public projects such as streets, buildings, and improvements. These bonds are backed by the full faith and credit of the issuing government and are financed through property tax revenues.

HEADWORKS – The initial structure and devices located at the receiving end of a water or wastewater treatment plant.

HVAC – Heating, ventilation and air conditioning.

IAV – Individually assessed vehicle.

IMPACT FEES – Set aside fees collected from developers causing infrastructure adjustments to the community. Monies to be used as the development further impacts the municipality.

I/I - An abbreviation for Infiltration and Inflow into the Sanitary Sewer System.

INFILTRATION - Groundwater that enters into the sanitary sewer through defects in the pipes and manholes such as cracks, separated joints, deteriorated manhole components, building foundation drains, and defective service laterals.

INFLOW - Surface stormwater that enters into the sanitary sewer through direct sources such as vented manhole covers, downspouts, area drains, and uncapped cleanouts.

INFLUENT – Water or wastewater flowing to a basin or treatment plant.

INTERCEPTOR - Sanitary sewer interceptors are those lines that convey sewage from neighborhood to neighborhood in route to the wastewater treatment plant. Pipe diameters are generally larger than lines placed within residential developments.

INTERCEPTOR SEWER - A sewer that receives flow from a number of other sewers or outlets for disposal or conveyance to a treatment plant.

INTERGOVERNMENTAL REVENUE - Grants, entitlements and cost reimbursements from another federal, state or local government.

INTERNAL SERVICE FUND - A fund used to account for the financing of goods or services provided by one department or agency to other departments of a government, on a cost- reimbursement basis.

ISSUER – A political subdivision (city, county, state, authority, etc.) that borrows money through the sale of bonds or notes. The Norman Utilities Authority and the Norman Municipal Authority are issuers of Revenue Bonds.

LAND APPLICATION – The disposal of wastewater or municipal solids onto land under controlled conditions.

LEVY - (Verb) To impose taxes, special assessments or service charges for the support of government activities. (Noun) The total amount of taxes, special assessments or service charges imposed by a government.

LIABILITIES - Debt or other legal obligations arising out of transactions in the past that must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

LIFT STATION - A pumping facility that conveys wastewater flow, from an area that would not naturally drain to the wastewater treatment plant, into the gravity sewer system for delivery and treatment.

LINE ITEM BUDGET - A budget prepared along divisional line items focusing on what is to be bought.

MATURITY – The date the principal amount of an investment security becomes due and payable.

NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) – Program in the U.S. to issue, monitor, and enforce pretreatment requirements and discharge permits under the Clean Water Act.

NON-EXCESSIVE I/I - Measured inflow and infiltration within a sanitary sewer system that is considered more expensive to eliminate through rehabilitation than to transport and treat at the Municipality's wastewater treatment facilities.

ODEQ – Oklahoma Department of Environmental Quality.

OG&E – Oklahoma Gas and Electric Company.

ODOT – Oklahoma Department of Transportation.

OPERATING BUDGET - Plans of current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing acquisition, spending, and service delivery activities of the City are controlled. Municipalities are required by State Law to use annual operating budgets.

OSHA – Office of Safety and Health Administration.

OVERFLOW - A condition in which the wastewater flow rate in a sewer system exceeds the capacity of the sewer to the extent that raw wastewater is discharged directly to storm and drainage systems.

PAYBACK ORDINANCE – Ordinance (0-9697-30) allows the City Council to vote funds to pay costs of extending wastewater & water lines from an existing location to, along side or beyond the boundaries of a developer's new construction.

PAYGO – Cash basis of project funding, as opposed to incurring debt.

PEAK FLOW – Excessive flows experienced during hours of high demand; usually determined to be the highest 2-hour flow expected under any operational conditions.

PROPERTY TAX - Taxes levied on all real and personal property according to the property's valuation and the tax rate, in compliance with State Property Tax Code.

PUBLIC SECTOR - Those facilities operated and maintained by the Municipality.

REAL PROPERTY - Property classified by the State Property Tax Board including residential, single, and multi-family, vacant lots, acreage, farm and ranch improvements, commercial and industrial, and oil, gas, and other mineral reserves.

REFUNDING - A system by which a bond issue is redeemed by a new bond issue under conditions generally more favorable to the issuer (lower interest rate; fewer restrictions, etc.)

REPLACEMENT COSTS - The cost as of a certain date of a property which can render similar service (but which need not be of the same structural form) as the property to be replaced.

RESERVE, DEBT - A portion of fund balance equal to the average annual debt service requirement that has been reserved to provide assurance that resources are available to meet each fiscal year's debt service payment.

RESERVE, CAPITAL - A portion of fund balance equal to the average of the forecasted capital expenditures during the five year forecasted period has been reserved in each fiscal year budget to provide assurance that resources are available to provide for the normal replacement of depreciable assets.

RESERVE, (DEFICIT) - The amount by which fund balance does not meet all reserve requirements.

RESERVE, LEGAL - A portion of fund balance that may not be appropriated for expenditures or is legally segregated for a specific future use.

RESERVE, OPERATING - A portion of fund balance that has been reserved in each fiscal year budget to protect service delivery from unexpected revenue loss or expenditure requirement.

RESERVE, SURPLUS - A portion of fund balance that is not reserved for any specified purpose, and may be appropriated for one-time expenditures as needed.

REVENUE - Increases net total assets from other than expense refunds, capital contributions, and residual equity transfers. Funds received as income.

REVENUE BONDS - Legal debt instruments which finance public projects for such services as water or sewer. Revenues from the public project are pledged to pay principal and interest of the bonds.

ROW – Right of Way.

SLUDGE – Accumulated and concentrated solids generated within the wastewater treatment process that have not undergone a stabilization process.

SPECIAL ASSESSMENT FUNDS – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for the financing of public improvements or services deemed to benefit properties in a specified area, against which special assessments are levied.

SPECIAL REVENUE FUNDS – An accounting fund type recommended by the Oklahoma Municipal Budget Act to account for the proceeds of specific revenue sources and related expenditures separate and apart from other funds, but for which the specified revenues may be insufficient to meet the related expenditures.

STATEWIDE REVOLVING FUND (SRF) LOANS – Under the SRF program, municipalities can obtain up to 40 percent in matching funds for approved projects, when 60 percent of the construction costs can be obtained by the municipality on the open municipal bond market or from available funds of the municipality.

STP-UZA – Federal Surface Transportation Program (STP) funds sub allocated by formula to urbanized areas (UZA) with a population greater than 200,000. [Statutory Reference: Title 23, United States Code, 133(d)(3) and 133(f)] authorized under the Surface Transportation Act of 1990 as amended.

SUBSIDY – A gift or grant of public moneys to a private individual or corporation or to another governmental jurisdiction, or a gift or grant of moneys from one sub-entity to another within a governmental jurisdiction.

SURCHARGE - A condition in which the wastewater flow rate in a sewer system exceeds the capacity of the sewer lines to the extent that raw sewage begins to rise within manholes. A sewer surcharge is experienced in advance of a Backup and Overflow.

TARGET AREA - Area selected for further study under the sewer system evaluation survey (SSES).

TAXES - Compulsory charges levied by a government for the purpose of financing services performed for the common benefit.

TIP – Transportation Improvement Program is a three-year, prioritized listing of transportation needs in the TMA. The TIP is administered by ACOG, ODOT and FHWA.

TMA – Transportation Management Area is that area where ACOG plans for transportation needs.

TMDL – Total Maximum Daily Load is the amount of pollutants, from natural and man-made sources, which can be discharged to a specific body of water without causing harm to the water’s quality or aquatic life. Any pollutant loading above the TMDL results in violation of applicable water quality standards.

WASTEWATER TREATMENT PLANT INVESTMENT FEE (WWTPIF) – A source of revenue for debt service and other capital and operational expenses of the Wastewater Treatment Plant improvements. The WWTPIF is the Norman Wastewater Utility’s version of an impact fee that was authorized by Ordinance 9697-2 on July 23, 1996. The WWTPIF is a one-time charge paid at the time new homes or businesses are permitted for connection to the sewerage system.

WPA – Works Progress Administration.

WW – Wastewater.
